ANALYSIS

Statutes interpreted:

Sections 443.015 (1) and (2), 443.075, 443.17, 443.175, Stats.

Statutory authority:

Sections 15.08 (5) (b), 443.015 (1), (1e), (1m) (a) 1., (b), and (2), 443.17 (2) (a), Stats.

Explanation of agency authority:

Section 15.08 (5) (b) states that each examining board "[s]hall promulgate rules for its own guidance and for the guidance of the trade or profession to which it pertains, and define and enforce professional conduct and unethical practices not inconsistent with the law relating to the particular trade or profession."

Section 443.015 (1) states that "[e]ach section of the examining board may establish continuing education requirements for renewal of a credential issued by that section under this chapter."

Section 443.015 (1e) states that “[t]he rules promulgated under sub. (1) by the registered interior designer section of the examining board shall require a Wisconsin registered interior designer to complete at least 15 hours of continuing education during the 2-year period immediately preceding the renewal date specified under s. 440.08 (2) (a). At least 10 of the 15 hours shall be in subjects related to the practice of interior design that safeguard the public's health, safety, and welfare.”

Section 443.015 (1m) (a) 1. states that

“1. Each section of the examining board shall promulgate rules to do all of the following:

a. Allow the holder of a credential under this chapter who is at least 65 years of age or has actively maintained that credential for at least 20 years, which need not be consecutive, and who certifies that he or she has retired from and no longer engages in the practice for which he or she holds the credential to apply to the board to classify that credential as retired status.

b. Allow an individual who previously held a credential under this chapter, and failed to renew that credential prior to the renewal date, to apply to the board to renew the credential with retired status if the individual is at least 65 years of age or had actively maintained that credential for at least 20 years, which need not be consecutive, certifies that he or she has retired from and no longer engages in the practice for which he or she previously held the credential, and pays the fee under par. (d). Section 440.08 (3) (a) and (b) does not apply to the renewal of such a credential.

c. Allow the holder of a credential classified as retired status as described under subd. 1. a. or b. to apply to the appropriate section of the examining board to remove the retired status classification if he or she satisfies reinstatement requirements established by the appropriate section of the examining board by rule.”

Section 443.015 (1m) (b) states that “[a]ny rules a section of the examining board promulgates under sub. (1) shall exempt a credential holder whose credential is classified as retired status under par. (a) from continuing education requirements.”

Section 443.015 (2) states that “[e]ach section of the examining board may promulgate rules governing the professional conduct of individuals, firms, partnerships, and corporations registered, permitted, certified, or granted a certificate of authorization by that section.”

Section 443.17 (2) (a) states that “[t]he registered interior designer section of the examining board shall promulgate rules establishing specifications for seals and stamps used by Wisconsin registered interior designers.”

Chapter SPS 130.

Plain language analysis:

Wisconsin Administrative Code Chapter SPS 130 currently outlines requirements for registered interior designers. The authority for the rules in SPS 130 was removed and transferred to the newly created Registered Interior Designers Section of the Examining board of architects, landscape architects, professional engineers, designers, professional land surveyors, and registered interior designers with the enactment of 2021 Wisconsin Act 195. The objective of this rule project is to implement the statutory changes from the act by creating chapters A-E 14 and 15 as a new part of the Wisconsin Administrative Code and by amending chapters A-E 1, 2, and 8 to add registered interior designers to the general provisions of the board. The new chapters cover the registration and continuing education requirements for registered interior designers.

Summary of, and comparison with, existing or proposed federal regulation:

None.

Summary of public comments received on statement of scope and a description of how and to what extent those comments and feedback were taken into account in drafting the proposed rule:

The Examining Board of Architects, Landscape Architects, Professional Engineers, Designers, Professional Land Surveyors, and Registered Interior Designers held a preliminary hearing on the statement of scope for this rule on June 13, 2023. The following comment was received from James Gersich, Wisconsin Registered Interior Designer:

“Today I am writing as a member of the public, registered as a Wisconsin Registered Interior Designer (WRID). You may also know me as the Vice Chair of the Joint Examining Board (JEB) of Architects, Landscape Architects, Professional Engineers, Professional Land Surveyors, Designers of Engineering Systems, and Registered Interior Designers; but this message is not intended to represent the views of the JEB but rather, my personal views; I have been credentialed in Wisconsin as an Architect and a Landscape Architect in addition to WRID, three all for many years, and have served for more than 12 years on the JEB and Architect Section.

As you develop Rules for the WRID/RID Section, please consider these:

1. The State of Wisconsin has in effect granted WRID registrants a monopoly over the practice and the title, and the rationale for this is solely the protection of the public's health, safety, and welfare (HSW).
2. Many years ago, Continuing Education (CE) requirements were initiated for some disciplines within the JEB, for continued licensure via biennial renewal.
3. Several years ago, DSPS (at the time, Department of Commerce) performed random audits for CE compliance by credential holders; but due to budget constraints, auditing was eliminated shortly thereafter.
4. The DSPS has no "policing" activity or staff that assures compliance with CE requirements, or conformance with any Rules. Hence, each licensee is obligated under A-E 8.08 to report possible violations. Within any disciplinary action investigated by DSPS staff supporting the Architect Section, compliance with CE requirements has been undertaken. But please note, only if a licensee is the subject

of a disciplinary investigation does compliance with the CE requirements stipulated within the Rules, occurs.

5. So as you undertake WRID rulemaking, please strongly consider these recommendations:

a. The number of biennial contact hours for registrants should match those of Architect. Details are found in A-E 12.03. This requires a combination of mostly HSW and then other “non-HSW” Learning Units (LUs) in addition; 24 hours (of which 16 shall be HSW topics) is required biennially.

b. The quality of approvable CE is important. For example, lunch-n-learns that are blatant sales pitches for specific manufacturer's products, should not be allowed. The American Institute of Architects (AIA) is the only design discipline professional organization (via JEB) that currently reviews all pre-submitted CE course content, for approval in advance for HSW designation. Consequently, courses approved by AIA as LU vs HSW should be allowed as acceptable CE for WRID renewal.

c. The AIA has a CE Transcript service for its members, and it is available to other design professionals at a reasonable cost. This Transcript has been widely (including in Wisconsin) accepted without question, in support of proof of CE. Rulemaking within WRID CE should recognize AIA, IIDA, ASID, and similar professional organizations who document CE for their members.

d. Lastly, please also consider requiring Professional Conduct and Ethics subject content when contemplating CE requirements for WRIDs. While JEB Architects (under 12.03) do not presently have such a requirement, it is required by the Professional Landscape Architects under A-E 11.03 in the quantity of 2 hours per biennium; these are not in addition to the minimum. I am licensed in Minnesota as an Architect and Certified Interior Designer. The State of Minnesota already requires Ethics CE for Architects, Landscape Architects, Professional Engineers and Certified Interior Designers, 2 hours per two-year renewal period being currently required.

Thank you for considering my recommendations.”

Comparison with rules in adjacent states:

Illinois:

Interior Designers in Illinois are registered through the Illinois Department of Financial and Professional Regulation. The Registered Interior Designer Act empowers the Board of Registered Interior Design Professionals, governs the practice of interior designers in Illinois, and includes statutory direction regarding interior designer practice, examination, registration and renewal, continuing education, and penalty for unregistered practice [225 Illinois Compiled Statutes ch. 310].

Interior Designers in Illinois are required to complete 10 hours of continuing education per biennium, including one hour in sexual harassment prevention training and one hour pertaining to the subjects of professional conduct or interior design professional ethics.

Finally, “All CE programs, activities or courses shall emphasize health, safety and welfare subjects” and meet certain other requirements. [Illinois Administrative Code Title 68 Part 1255 s. 1255.61]. Part 1255 of the Illinois Administrative Code further details rules for interior designers in the areas of registration, examination, seal and signature requirements, endorsement, continuing education, and granting variances. [Illinois Administrative Code Title 68 Part 1255 s. 1255.10 to 1255.90].

Iowa:

Interior Designers in Iowa are registered through the Iowa Department of Inspections, Appeals, and Licensing. The Iowa Interior Design Examining Board regulates the practice of registered interior designers. Chapter 544C of the Iowa Code includes statutes on registration, reciprocal registration, continuing education, penalty for violations of unlawful use of title, and grants administrative rulemaking authority to the board [Iowa Code ch. 544C.1 to 544C.13].

Section 193G of the Iowa Administrative Code for the Interior Design Examining Board further details rules for interior designers in the areas of registration, continuing education, professional conduct, and discipline. Interior designers are required to complete at least 10 hours of continuing education “in acceptable health, safety, and welfare subjects” per biennium. Carryover hours are not permitted. [193G Iowa Administrative Code ch. 3].

Michigan:

Michigan does not register, certify, nor license interior designers.

Minnesota:

Interior designers in Minnesota are certified through the Minnesota Board of Architecture, Engineering, Land Surveying, Landscape Architecture, Geoscience, and Interior Design. Chapter 326 of the Minnesota Statutes includes requirements for all professions within the board in regard to their scope of practice, certification requirements, grounds for disciplinary action, and continuing education.

Interior designers in Minnesota must complete at least 24 hours of approved continuing education, of which two must be in professional ethics, within the two years preceding renewal. Interior designers are allowed to carry over up to 50 percent of the biennial requirement of hours towards the next renewal period [Minnesota Statutes 326.107].

The Minnesota Administrative Rules have two chapters that include interior designers. Chapter 1800 is dedicated to licensing and operation for all professions on the board. Subsections 1800.2100 and 1800.2200 detail the provisions for education and experience, and procedures related to the practice of interior design. Chapter 1805 further explains the provisions of unprofessional conduct for all professions within the board.

Summary of factual data and analytical methodologies:

The proposed rules were developed by conducting a comprehensive review of the provisions of chs. A-E 1 to 13 and obtaining input and feedback from the Rules Committee of the A-E Board and the Registered Interior Designer Section. The Board also reviewed the statutory changes from 2021 Wisconsin Act 195 and promulgated rules as needed for the profession.
