The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

SECTION 1. There are added to the statutes five new sections to read: Section 392v. There is appropriated out of any moneys in the general fund not otherwise appropriated the sum of sixteen thousand dollars to be used by the Wisconsin Mining Trade School board in maintaining the Wisconsin Mining Trade School for the period ending June 30th, 1911.

Section 392w. The county board of any county is hereby authorized to appropriate money for the equipment and maintenance of the Wisconsin Mining Trade School. The county boards of two or more counties may appropriate money for the equipment and maintenance of said school. When two or more counties unite in equipping and maintaining said school, the Wisconsin Mining Trade School board shall apportion the amount to be raised by taxation among the counties in proportion to the assessed valuation of each county as last fixed by the state board of assessment, and shall report to the county clerk of each county the apportionment so made, on or before the first Monday of November in each year. The amount so apportioned to each county shall be levied in the county tax for the ensuing year for the support of such school. Any such appropriation may be made by any such county at any regular annual meeting of the county board after the passage and publication of this act, which appropriation shall be available on and after the 30th day of June, 1911, and annually thereafter as provided in this section and section 392x.

Section 392x On or before the 30th day of June in 1912, and annually thereafter, the Wisconsin Mining Trade School board shall file with the secretary of state a certificate showing the cost of maintaining said school, the courses of instruction taught, the character of the work done, the names of the

teachers employed, and such other matters as will show that all the provisions of chapter 573, laws of 1907, [sections 392m, 392n, 392o, 392p, 392q, 392r, 392s and 392t.] have been complied with. Upon receiving such certificate, the secretary of state shall draw his warrant, payable to the treasurer of the county maintaining such school, for a sum equal to two-thirds of the amount actually expended for maintaining such school during the year, provided that the amount so appropriated shall not exceed six thousand dollars for any one year; when more than one county has contributed to the support of such school, the secretary of state shall draw his warrant, payable to the treasurer of each county for such proportion of the state aid as the amount contributed by his county is to the total amount contributed by all the counties for the support of the school for the preceding year.

Section 392y. Any city wherein a mining trade school is located may appropriate annually for equipping and maintaining said school or may appropriate annually for the purpose of reimbursing any county or counties which have appropriated money for the equipment and maintenance of such school a sum not exceeding three thousand dollars in any one year. In case no county board shall appropriate any money as provided in section 392w, then any city within which is located a mining trade school may appropriate annually not to exceed three thousand dollars for the equipment and maintenance of said school. In such case the Wisconsin Mining Trade School board shall on or before the 30th day of September, 1911, and on the 30th day of each month thereafter, file with the secretary of state a certificate showing the cost of maintaining said school, the courses of instruction taught, the character of the work done, the names of the teachers employed, the equipment purchased, and such other matters as will show that all the provisions of chapter 573, laws of 1907, [sections 392m, 392n, 392o, 392p, 392q, 392r, 392s and 392t.] have been complied with. Upon receipt of such certificate, the secretary of state shall draw his warrant, payable to the treasurer of such city maintaining such school, for a sum equal to two-thirds of the amount actually expended for maintaining and equipping such school during the month, provided that the amount so appropriated by the state shall not exceed six thousand dollars in the aggregate for any one year.

Section 392z. There is hereby appropriated out of any moneys in the state treasury not otherwise appropriated a sum sufficient to carry out the provisions of this act.
