CHAPTER 503.

AN ACT to amend subsection (2) and to create paragraph (e) of subsection (2) of section 29.52 of the statutes, relating to private fish hatcheries.

The people of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

SECTION 1. Subsection (2) of section 29.52 of the statutes is amended to read: (29.52) (2) The term "private fish hatchery," * * * covering private fish hatcheries already registered with the conservation commission, includes only private ponds with or without buildings, used for the purpose of propagating fish and located as follows:

(a) At the headwaters of or along a stream for a distance of not to exceed one mile, on private land possessed and controlled by the owner or owners of such hatchery.

(b) On private land where the supply of water for the hatchery is furnished by springs or artificial wells.

(c) On private land where the supply of water for the hatchery is obtained by the use of flumes, pipes, or ditches from flowing streams, provided that said flumes, pipes, or ditches, shall be properly screened so as to prevent fish from passing from such streams to the ponds of such hatchery.

(d) As to private fish hatcheries hereafter established, the term "private fish hatchery" shall include only private ponds, with or without buildings, used for the purpose of propagating fish and located on artificial ponds or artificial lakes.

SECTION 2. A new paragraph is added to subsection (2) of section 29.52 of the statutes to read: (29.52) (2) (e) Any person desiring to operate a private fish hatchery, even though registration has already been made for the purpose of propagating and selling fish, shall make application in writing on a form prepared by the conservation commission. The commission shall then inspect the area for which a license has been applied, and if it appears that such application is made in good faith, and when satisfied of the intention and ability of the applicant to construct or maintain ponds, or buildings for the rearing of such fish, shall issue a renewal of the license to propagate, raise and sell fish of the kind specified in the application during the calendar year. The licensee shall keep an accurate record of all fish purchased or sold or disposed of. Upon making application for a renewal of license for the succeeding year the licensee shall make a report, verified by affidavit, to the conservation commission covering the period from January 1 to December 31 of the previous year upon blanks furnished by the commission, giving such information as the commission may request on blanks furnished by them.

SECTION 3. This act shall take effect upon passage and publication.
