

Chapter OEEA 1

REPORTING REQUIREMENTS

OEEA 1.01 Definitions
OEEA 1.02 Reports required

OEEA 1.01 Definitions. (1) "Petroleum fuel" means any petroleum derivative (except natural gas) useable as a fuel and includes fuels classifiable as middle distillate fuels, such as kerosene, jet fuel, home heating oil, range and stove oil, diesel fuel and gas oil, and such other fuels as motor or aviation gasoline or aviation turbine fuel, liquid petroleum gas, propane, butane, or propane-butane mixes, residual fuel oils, and all other refined petroleum products.

(2) "Wholesale customer or purchaser" means any person, partnership, corporation, cooperative, business, common-law trust, unincorporated association, joint adventurers, or governmental unit or agency purchasing petroleum fuels in lots of 5,000 gallons or more or purchasing coal in lots of 2 tons or more for such wholesale customer or purchaser's own use or in any amount for resale. A wholesale purchaser may also be a supplier.

(3) "Supplier" means any refiner, importer, jobber, distributor, terminal operator, marketer, or any other person, partnership, corporation, cooperative, business, common-law trust, unincorporated association, joint adventurers or governmental unit or agency supplying petroleum fuels or coal to wholesale customers or purchasers. A supplier may also be a wholesale purchaser.

(4) "Office" means the Wisconsin office of emergency energy assistance created by Executive Order No. 64, November 2, 1973, and designated by the governor under Executive Order No. 72 on December 31, 1973 as his designee for the purpose of carrying out any and all responsibilities contained in chapter 157 of the Laws of 1973, and its successor.

History: Cr. Register, June, 1974, No. 222, eff. 7-1-74.

OEEA 1.02 Reports required. The following reports shall be submitted to the office within the times specified:

(1) Suppliers shall submit to the office on or before August 15, 1974 a one-time report setting forth all sales for consumption in Wisconsin of each type of petroleum fuel or coal for the period January 1, 1970 through December 31, 1973. The report shall specify the quantity of each type of fuel sold in each month of such period. The report shall also specify the storage capacity at each location by product at the time the report is submitted.

(2) Suppliers shall submit to the office, on forms provided by or approved by the office, a monthly report setting forth the quantity of each type of petroleum fuel and each type of coal designated on the form which the supplier has had in inventory at the beginning and end of the month and has received and sold during the month for resale or consumption in Wisconsin for the calendar month cov-

Register, June, 1974, No. 222

ered by the report, as well as the supply anticipated for the following month. Suppliers shall, when requested by the office, furnish with such monthly report a list of wholesale customers and purchasers and the quantities sold to them in the month covered by the report including allocation fractions applied for each class of customers under applicable federal fuel allocation laws and regulations. The reports shall be filed in the office on or before the seventh day of the month for which the supplier is required herein to furnish information or at such other date as may be specified by the office.

(3) Wholesale customers or purchasers shall, when requested by this office, submit to the office on forms provided or approved by the office by the date specified in the request, a report of the quantity of each type of petroleum fuel or type of coal designated on the form which such wholesale customer or purchaser has within the state on the date specified on the request.

History: Cr. Register, June, 1974, No. 222, eff. 7-1-74.
