NR 10.001 Definitions. (1) "Antlerless deer" means any deer without antlers or with an antler less than 3 inches in length.

(1h) "Accompanied by", for the purposes of s. 29.227, Stats., means within sight and voice contact, without the aid of any mechanical or electronic amplifying device other than a hearing aid.

(3) "Bearded turkey" means a turkey with a bristle-like appendage protruding from the upper part of the breast.

Note: Subsection (9) does not remove the requirement of ss. 29.224 and 350.06, Stats., to enclose bows or crossbows in carrying cases. The rule does not apply to bows or crossbows only because the natural resources board recognizes that certain designed bow cases may allow portions of the bow, for instance the handle, to be exposed and yet still render the bow inoperable.

(9m) For the purpose of administering the Canada goose hunting permit system, "Exterior goose management zone" or the "Exterior zone" means all that part of the state outside of the Collins, Horicon, Pine Island and Theresa goose management zones described in s. NR 10.102 Bear hunting permits. (1) **BEAR QUOTAS.** Bear quotas are based on the status of zone black bear populations in relation to established population goals as determined by inventories.

(a) *Purpose.* The department shall issue bear harvest permits in sufficient numbers to assure maintenance of bear populations for each zone indicated in par. (d).

(b) *Permit formula.* In each black bear management zone, the number of permits to be issued to harvest the desired numbers of bear shall be based on an average of the hunter success rates from the most recent 3 previous seasons or by an average of fewer seasons where a 3-year average is not available. In establishing permits for a zone without an adequate history of permits, the average success rates of similar zones shall be applied or the department shall estimate an anticipated success rate. The permit number formula is:

Register, January, 1989, No. 397

$$\text{Permit number} = \frac{\text{Bear to be harvested}}{\text{Hunter success rate}}$$

(c) *Success rate formula.* Permit success rates used to compute the number of permits to be issued for each zone shall be those calculated by the department from annual bear season harvest reports except where no previous history of success rates exist. The success rate formula is:

$$\text{Success rate} = \frac{\text{Number of bear harvested}}{\text{Number of permits issued}}$$

(d) *Population goals.* This fall, pre-hunt black bear population goal is as follows:

<u>Zone</u>	<u>Population Goal</u>
A	4,100
B	1,600

(3) **PERMIT ISSUANCE.** The department shall select successful applicants and issue permit approval notices no later than February 15 of each year. The department may reissue a permit if the permit is returned undelivered by the postal authorities or if the applicant fails to or cannot comply with s. 29.1085, Stats. Selection shall be by random drawing.

(4) **FEES.** A successful applicant shall submit the appropriate permit fee established by s. 29.092 (2) (kg) or (kr), Stats., to the department before receiving a harvest permit. The fees shall be mailed and postmarked no later than the Friday nearest March 1 or received by the department license section, 101 South Webster, P.O. Box 7924, Madison, WI 53707 no later than 4:30 p.m. on that Friday each year.

(2) **VALIDATION.** Any person who kills a deer shall immediately separate the issued carcass tag from the back tag and validate the carcass tag by slitting the mark designating the month, day, time of kill and type of deer. Failure to completely validate the carcass tag renders possession of the deer illegal and the carcass tag invalid.

Note: The carcass tag attachment procedures are also provided in s. 29.40 (2), Stats.

(b) *Form.* Application forms supplied by the department shall be completed and submitted by the applicant.

(c) *Application deadline.* Applications shall be postmarked no later than the Friday nearest October 1 or received by the department license section, 101 South Webster, Box 7924, Madison, WI 53707, no later than 4:30 p.m. on that Friday each year.

(3) **PERMIT ISSUANCE.** Upon receipt of proper application, the department shall issue permits in the following manner:

(a) *Initial permit.* Successful applicants for hunter's choice or antlerless permits shall be determined by random selection from all eligible applications received for each deer management unit. Permits remaining unissued for any deer management unit after all initial applications have been processed may be issued by the department on a first-come, first-served basis, in accordance with any statutorily established landowner preference permit issuance system, or as established by par. (b).

(b) *Second permit.* If the number of hunters choice or antlerless permits in any management unit exceeds the number of applications for such permits, the department may issue the remaining permits available for that unit as antlerless deer hunting permits only to its successful initial deer hunting permit applicants. Permittees to be issued the second permit shall be randomly selected in accordance with any statutorily established landowner preference permit issuance system.

(4) **PERMIT VALIDATION.** Validation decals numbered to correspond with the permit shall be issued to each successful applicant. The permit holder shall affix a validation decal to his or her current deer registration stub and corresponding back tag immediately upon receipt.

Register, January, 1989, No. 397

(b) *Antlerless deer hunting permit.* Valid for the taking of one antlerless deer only.

(7) **DEER HARVEST QUOTAS.** Deer harvest quotas are based on deer management unit populations in relation to established population goals as determined by inventories, the past effect of varying antlerless harvest levels on deer management unit populations, and the estimated impact of the previous winter's severity on deer survival and subsequent fawn production.

(a) *Purpose.* The department shall issue party permits, antlerless permits or hunter's choice permits in sufficient numbers to assure maintenance of overwintering deer populations for each deer management unit indicated in par. (d).

(b) *Permit formula.* In each deer management unit, the number of permits to be issued to harvest the desired number of deer shall be based on the hunter success rate average from the most recent 3 previous seasons or by an average of fewer seasons where a 3-year average is not available. In establishing a harvest quota for a deer management unit without an adequate history of permits, the average success rates of similar deer management unit shall be applied or the department shall estimate an anticipated success rate. The permit number formula is:

$$\text{Permit number} = \frac{\text{Antlerless deer to be harvested}}{\text{Hunter success rate}}$$

(c) *Success rate formula.* Permit success rates used to compute the number of permits to be issued for each deer management unit shall be those calculated by the department from annual deer season harvest statistics except where no previous history of success rates exist. The success rate formula is:

$$\text{Success rate} = \frac{\text{Number of antlerless deer harvested}}{\text{Number permits issued}}$$

(d) *Overwinter goals.* Overwinter population goals expressed in terms of deer per square mile of deer range by deer management unit are as follows:

NR 10.117 Deer season modification. (1) **POWERS.** The secretary of the department may, upon making the findings in sub. (2), extend the gun deer season for any deer management unit or any group of deer management units to reduce or maintain the deer population to the overwinter population goals established in s. NR 10.104 (7) (d).

(2) **FINDING.** The secretary shall, prior to exercising powers under sub. (1), find:

(a) It is unlikely the deer population for the deer management unit will be reduced to or maintained at the overwinter population goals established in s. NR 10.104 (7) (d) during the established gun deer season. A minimum of 2 days of the gun deer season have been completed and the harvest data available has been reviewed and considered by the department;

Register, January, 1989, No. 397

(b) It is likely that a failure to reduce the deer population to the over-winter population goals in the unit will result in increased deer damage to commercial seedings or crops on agricultural lands, nurseries or orchards or a waste of the resource.

(3) NOTICE. Modification by the secretary under sub. (1) shall become effective upon issuance of an order and publication in the official state newspaper. In addition, a copy of the order shall be provided to newspapers in the area affected and to all legislators.

History: Cr. Register, September, 1985, No. 357, eff. 10-1-85; am. (1) and (2) (a), Register, July, 1988, No. 391, eff. 8-1-88.

NR 10.12 Migratory game bird hunting. (1) PROHIBITED METHODS. No person shall hunt any migratory game bird by any of the following methods:

(a) *Sinkbox.* From or by means, aid or use of a sinkbox or any other type of low floating device, having a depression affording the hunter a means of concealment beneath the surface of the water.

(b) *Boats.* From any boat or craft other than those propelled by paddle, oar or pole. When motors or sails are attached to the boat, the motor shall be completely shut off and the sail furled, and the boat's progress stopped before a firearm may be loaded.

(c) *Structures.* From any pier, dam, dock or similar structure.

(d) *Rallying.* By the use or aid of any water, air or motor-driven land conveyance used for the purpose of or resulting in stirring up, driving or rallying.

(e) *Bird calls.* By the use or aid of recorded or electrically amplified bird calls or sounds or imitations thereof.

(f) *Live decoys.* By using directly or indirectly any live tame or captive ducks or geese for decoy purposes regardless of the distance intervening between any such live decoys and the position of the hunter. All live tame or captive ducks and geese shall be removed for a period of 10 consecutive days prior to hunting, and confined within an enclosure which substantially reduces the audibility of their calls and totally conceals these live birds from the sight of migratory waterfowl.

(g) *Decoy use.* By the use or aid of decoys which are: placed beyond 200 feet from the blind or cover in which the hunter is located. In addition, it is unlawful to:

a. Place in the water prior to one hour before opening hunting time.

b. Leave in the water unattended.

c. Leave in the water more than 20 minutes after the close of hunting time.

(h) *Baiting.* 1. By the use or aid of salt or shelled or shucked or unshucked corn, wheat or other grains or other feed or means of feeding similarly used to lure, attract or entice such birds to, on, or over the area where hunters are attempting to take them. A baited area is considered to be baited for 10 days after the removal of the bait.

Register, January, 1989, No. 397

2. This subsection shall not be construed to apply to propagating, scientific or other operations in accordance with the terms of lawfully issued state and federal permits, or to the taking of birds over salt blocks, properly shocked corn, standing crops (including aquatics), grains found scattered solely as a result of normal agricultural practices, flooded standing crops or flooded harvested crop lands, or to the feeding of migratory game birds at any time not in connection with hunting.

(2) **POSSESSION.** No person shall possess any live or crippled migratory game bird reduced to possession by means of hunting. Such bird shall be immediately killed and become a part of the daily bag limit.

(3) **OPEN WATER RESTRICTIONS.** No person may hunt waterfowl in open water from any blind which may include any boat, canoe, raft, contrivance or similar device except:

(a) *Mississippi river.* Blinds in any of the waters of the Mississippi river and adjoining counties provided the blinds are securely anchored and located not more than 100 feet from any shoreline including islands. Blinds in open water in Grant county and the Lake Pepin portions of the Mississippi river are permitted regardless of the distance from shore provided the blinds are securely anchored.

(b) *Great Lakes area.* Blinds in open waters of Lake Superior, Lake Michigan and Green Bay beyond 500 feet of any lake or bay shoreline. Blinds do not have to be anchored in these areas.

(c) *Lake Winnebago and Petenwell flowage.* Blinds in open waters of Lake Winnebago and Petenwell flowage (north of state highway 21 and south of state highway 73) if more than 1,000 feet from any shoreline including islands provided blinds are securely anchored.

(d) *Blind removal.* All open water blinds shall be removed at the close of hunting hours each day.

(4) **SPECIAL BLIND RESTRICTIONS.** The department may restrict hunters to certain blind locations within the Collins, Pine Island and Theresa state wildlife areas by posted notice. If posted, maps shall be provided by the department indicating where blind sites are located. The following blind restrictions apply to goose hunting in the Collins, Horicon and Theresa zones:

(a) *Zone restrictions.* On any land within the Horicon intensive management zone established in s. NR 10.31 (5) and on private land, unless leased by the department for public hunting, within the Collins and Theresa zones established in s. NR 10.31 (3) and (10), no person may hunt geese except from a blind.

(b) *Hunter limits.* No more than 2 hunters may occupy any blind at one time nor may any person hunt waterfowl from a blind placed within 200 yards of any other blind occupied by one or more waterfowl hunters or within 100 yards of the property boundary on which the blind is located.

(c) *Game retrieval.* Downed game birds may be retrieved outside blinds with the aid of guns and dogs or by hand.

(5) **TAKING METHODS.** No person shall hunt any migratory bird:

(a) *Guns and devices.* With a trap, snare, net, rifle, pistol, crossbow other than in s. 29.104, Stats., swivel gun, punt gun, battery gun, machine gun, fishhook, poison, drug, explosive, stupefying substance or shotgun of a larger bore than a no. 10 gauge.

(b) *Shotgun capabilities.* With any automatic-loading or hand-operated repeating shotgun capable of holding more than 3 shells the magazine of which has not been cut off or plugged with a one-piece filler incapable of removal without disassembling the gun so as to reduce the capacity of said gun to not more than 3 shells at one time in the magazine and chamber combined.

(c) *Legal means.* By any means other than a shotgun fired from the shoulder or a bow and arrow, or by falconry.

(d) *Non-toxic shot requirements.* While hunting waterfowl and coot within any area of the state, no person may:

1. Take, catch, kill or pursue waterfowl and coot with any shotshell loaded with any material other than nontoxic shot.

2. Possess any shotshell loaded with any material other than nontoxic shot.

Note: Muzzle-loading firearms are not restricted by this rule because shotshells are not part of their mechanism.

(6) **TAGGING.** No person may give, put or leave migratory game birds at any place, other than at that person's permanent abode, or in the custody of another person unless the birds are tagged individually or collectively with tags bearing the following information:

(a) The hunter's signature,

(b) The hunter's address,

(c) The total number of birds tagged, by species, and

(d) The dates the birds were killed.

Note: Tagging is required if the birds are being transported by another person for the hunter, or if the birds have been left for cleaning, storage (including temporary storage), shipment, or taxidermy services.

(7) **DRESSING.** No person may completely dress any migratory game bird and then transport the bird from the field. The head or one fully feathered wing shall remain attached to all migratory game birds being transported from the field to the person's permanent abode or a preservation facility.

(8) **SHIPMENT.** No person may ship migratory game birds unless the package is marked on the outside with:

(a) The name and address of the person sending the birds,

(b) The name and address of the person to whom the birds are being sent, and

(c) The number of birds, by species, contained in the package.

(9) **IMPORTATION.** (a) One fully-feathered wing shall remain attached to all migratory game birds being transported between the port of entry and the possessor's permanent abode or to a preservation facility.

(b) No person may import migratory game birds belonging to another person.

Note: Violation of state migratory game bird regulations is also a violation of federal regulations. Importation restrictions do not prohibit the importation of legally taken, fully feathered migratory game birds for mounting purposes by a taxidermist holding a valid federal permit and licensed by the U.S. department of agriculture to decontaminate birds.

NR 10.125 Canada goose hunting. (1) PERMIT REQUIREMENTS. (a) *Permit possession*. No person may hunt Canada geese in any area of the state without having on their person a current, valid Canada goose hunting permit.

(b) *Permit validity*. Permits and any associated carcass tags are valid only in the zones and for the time periods specified on the permit during the open season established for Canada geese.

(c) *Permit quota*. The number of Canada goose permits issued by the department annually under this section and under s. NR 19.84 shall be based upon the assigned federal quota and distributed within established zones based upon the general distribution of geese within the state and the previous year's hunter success rates.

(d) *Permit application procedures*. 1. Application forms supplied by the department shall be completed and submitted by the applicant together with the appropriate hunting license stub, senior citizen recreation card number, hunter education certificate number or bow license number. Applications shall be postmarked no later than the second Friday in September or hand delivered to the department license section no later than 4:30 p.m. on that Friday each year.

Note: The license section address is 101 South Webster, Box 7924, Madison, WI 53707.

2. No person may submit more than one application per year or an application containing false information.

Register, January, 1989, No. 397

3. If 2 or more persons wish to hunt together in the Collins, Horicon or Pine Island zones, each must fill out an application form and submit them together in one envelope clearly marked "group application" on the outside. A group application shall be considered one application.

4. Applicants may indicate preference for any zone and period.

5. Persons not applying by the permit application deadline for Collins, Horicon or Pine Island zones may apply for a Theresa or Exterior zone permit provided the Canada goose season is open in the zone of application.

a. Theresa zone permit applicants shall obtain their permits in person at the on-site department stations from 5:30 a.m. to 3:00 p.m. during the open season for Canada goose hunting.

b. Exterior zone applicants may complete and submit the department supplied application form by mail or in person to the address identified on the form or hand delivered to the department license section no later than 4:30 p.m. Monday through Friday during the open season.

Note: The license section address is 101 South Webster, Box 7924, Madison, WI 53707.

(d) *Permit issuance procedures.* The department shall issue Canada goose hunting permits in the following manner:

1. Permit quantities shall be limited for the Collins, Horicon and Pine Island zones only. All other eligible zone applicants shall receive a permit provided the zone's harvest quota has not been reached.

2. When Collins, Horicon or Pine Island zone applications exceed the number of permits available, successful applicants shall be randomly selected and priority given to persons who applied for a permit, but were unsuccessful the previous year.

3. If the number of Collins, Horicon or Pine Island zone permit applications are less than the number of permits available for any time period, the department may issue the remaining permits to successful applicants by random selection and increase the applicant's season bag limit accordingly.

4. Horicon zone permit holders possessing a current, valid permit with an unused carcass tag may also hunt in the Theresa zone provided:

a. The Theresa zone harvest quota has been reached; and

b. The federally assigned season framework has not been terminated; and

c. Approval is obtained based on subpars. a. and b. from the person in charge of the department goose registration station located adjacent to the village of Theresa Station.

5. Exterior zone permits may be issued to applicants appearing in person at select department offices Monday through Friday, 8:00 a.m. - 4:30 p.m.

(e) *Permit validation procedures.* Except in the Theresa zone, when a Canada goose is taken and before it is transported in any manner, the hunter shall validate the permit by slitting or punching the mark indicating the month and day the goose was killed and following the carcass

tag marking procedures established in sub. (2) (b). Failure to follow the validation procedure invalidates the permit and renders any goose in possession illegal.

(2) **CARCASS TAG REQUIREMENTS.** The following carcass tag requirements apply to Canada goose hunting in the Collins, Horicon, Pine Island and Theresa zones:

(a) *Tag possession.* No person may hunt Canada geese without being in possession of a valid carcass tag issued by the department.

(b) *Tagging requirements.* When a Canada goose is taken and before it is carried by hand or transported in any manner, the hunter shall:

1. Validate the permit by tearing or cutting out notches on the tag designating the month, day and time of kill. Failure to follow the validation procedure in this manner invalidates the permit and renders any goose in possession illegal.

2. Completely attach and seal the paper tag, utilizing its own adhesive, to the neck of the goose.

3. No person may possess or transport a Canada goose unless it is tagged with a validated tag.

(c) *Transportation restrictions.* The hunter shall:

1. Transport the goose in a motor vehicle in such a manner that the tag attached to the goose cannot be handled or manipulated by any occupant of the vehicle.

2. Keep the tag attached to the goose until it reaches the personal abode of the person taking it.

(3) **REGISTRATION REQUIREMENTS.** Canada geese killed in the Theresa zone shall be registered at on-site department stations no later than 8:00 p.m. on the opening day of the zone's duck season and no later than 3:00 p.m. on the day it was killed during the remainder of the season.

(4) **ADDITIONAL TAGS.** Theresa zone hunters may obtain one additional carcass tag for each consecutive time period provided:

1. The zone harvest quota has not been reached; and

2. The additional carcass tag is used in a valid time period established in s. NR 10.01 (1) (g).

(5) **REPORTS.** (a) *Report card issuance.* Canada goose harvest reports shall be issued to each successful applicant for the Collins, Horicon, Pine Island and Exterior zones.

1. Collins, Horicon and Pine Island zone permit holders shall be issued one report card for each Canada goose permitted by bag limit during the open season.

2. Exterior zone permit holders shall be issued 5 report cards. Additional report cards may be issued at select department offices to applicants appearing in person. Applicants may receive up to 15 additional report cards for each valid Canada goose hunting permit presented to the department.

(b) *Harvest reports.* Except for Theresa zone permittees, each successful Canada goose hunting permit holder shall complete and submit a harvest report on forms supplied by the department. The report shall be submitted to the department within 48 hours of harvesting a goose.

(c) *Hunting reports.* The department may require any permit holder to provide the department a goose hunting report. The selected hunter shall be required to complete the report and mail it within 48 hours of receipt.

Note: The hunting report forms will be mailed to certain hunters only.

(6) *Canada goose limits.* The daily bag limit on Canada geese statewide is not more than that permitted in any one zone within the state and no person may possess or transport more than the daily bag limit or aggregate daily limit, whichever applies, or migratory game birds, tagged or not tagged, at or between the place where taken and either the person's personal abode or temporary or transient place of lodging; or a commercial preservation facility.
