

tion 27, township 38 north, range 5 east, downstream from the said dam for a distance of 500 feet.

History: Cr. Register, December, 1976, No. 252, eff. 1-1-77.

NR 26.22 Fish refuges. The following described areas are hereby created and established as fish refuges and it shall be unlawful for any person or persons to take, disturb, catch, capture, kill or fish for fish in any manner from April 10 to May 15 each year, both dates inclusive, in, on or along the following described water areas:

(64) VILAS COUNTY. (a) *Little St. Germain*. That part of Little St. Germain beginning at the lake outlet in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$, section 36, township 40 north, range 8 east extending downstream for a distance of 500 feet.

History: Cr. Register, December, 1976, No. 252, eff. 1-1-77.

NR 26.23 Fish refuges. (1) In order to prevent substantial depletion of the fish supply, the following described spawning areas and nursery areas in Lake Superior are hereby created and established as fish refuges and no person may take, catch, capture, kill or fish for fish in any manner at any one time in, on or along the following described water areas:

(a) From the southernmost point of Outer island in a straight line and a southerly direction to the Gull island light and then south to the northernmost point of Michigan island proceeding in a southerly direction following the shoreline of Michigan island to the Michigan island light, then southerly towards the center of the mouth of the Bad river in Ashland county to latitude $46^{\circ}41'$; then due east to the Michigan state line; then northerly along the state line to a point due east of the southerly tip of Outer island; from that point due west to the southernmost point of Outer island, the place of beginning excluding those waters within 2 miles of Outer island and within one mile of the mainland shoreline of Ashland county; except that licensed commercial fishers may fish all that area within these external boundaries wherein the lake bottom lies at a depth of 35 fathoms (210 feet) or more; and, except in those included waters less than 7 fathoms in depth which immediately adjoin Michigan island, gill nets with a mesh size of $2\frac{3}{4}$ " or less stretch measure may be used from November 5 to December 5 for the taking of Menominee whitefish.

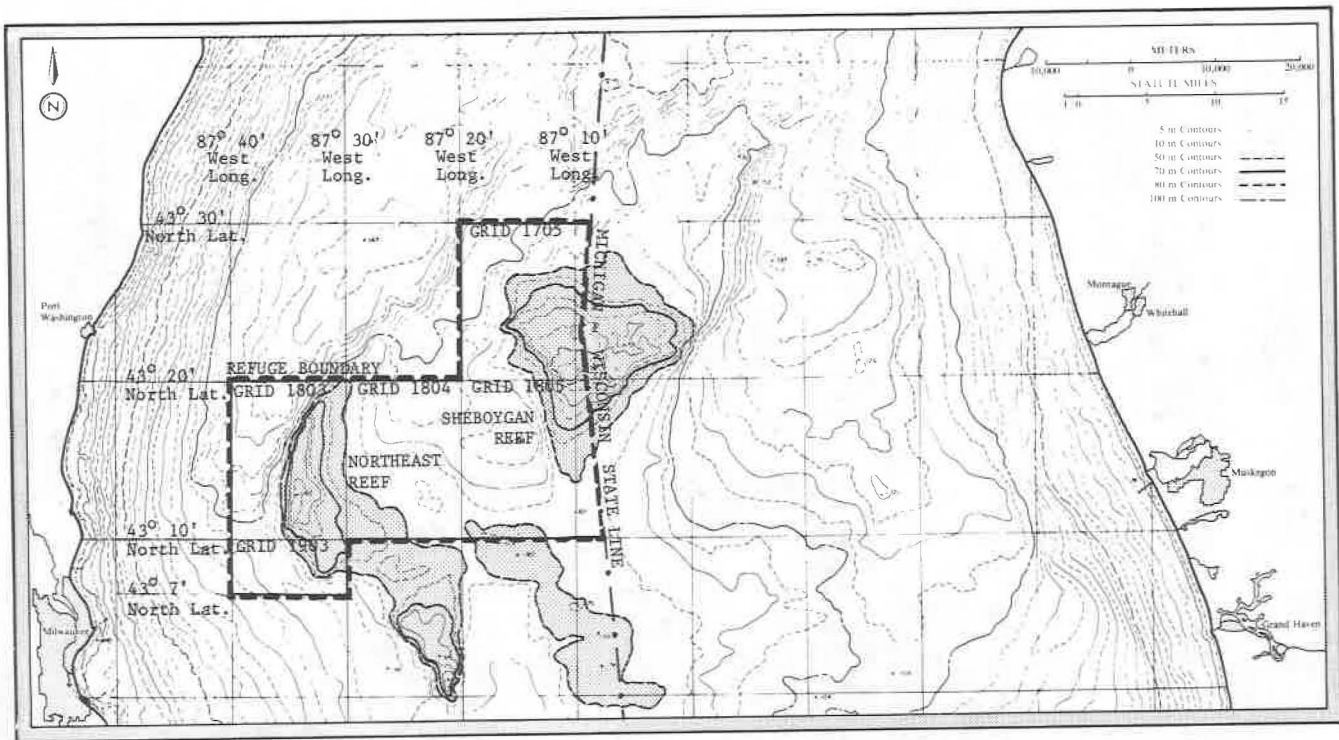

(b) All waters wherein the bottom lies at a depth of less than 35 fathoms northerly from a line beginning 2 miles north of the Outer island light and extending westerly to the north end of North Twin island, then along the shoreline to the south end of North Twin island, then southwesterly to the north end of South Twin island, then northerly to the north end of Rocky island, then along the north shoreline to the northwest point of Rocky island, then northwesterly to the south end of Devils island, then along the shoreline to the north end of Devils island, then westerly to a point $2\frac{1}{2}$ miles north of the York Island Shoal bell buoy.

(2) In order to prevent substantial depletion of the fish supply, the following described spawning area in Lake Superior is hereby created and established as a fish refuge and no person may take, catch, capture, kill or fish for fish in any manner in, on or along the following described area during the prescribed period, both dates inclusive:

Register, January, 1989, No. 397

(a) Cat Island Shoal is defined as all waters bounded by a line extending from a point 2 miles north of the Outer island light to the northern end of North Twin island, along the shoreline to the southernmost end of North Twin island, then southwest to the north end of South Twin island, along the shoreline to the southernmost end of South Twin island, then easterly to the north end of Cat island, then along the shoreline to the easternmost point of Cat island, then northeasterly to the Outer island light, then due north to the place of beginning, September 1 to November 28.

(3) In order to prevent substantial depletion of the fish supply, the following described area in Lake Michigan is established as a fish refuge and no person may take, catch, capture, kill or fish for fish in any manner at any time in or on the following described water area: all waters bounded by a line beginning at the point where $43^{\circ}7'$ north latitude and $87^{\circ}40'$ west longitude intersect, then proceeding northerly along $87^{\circ}40'$ west longitude to its intersection with $43^{\circ}20'$ north latitude, then proceeding easterly along $43^{\circ}20'$ north latitude to its intersection with $87^{\circ}20'$ west longitude, then proceeding northerly along $87^{\circ}20'$ west longitude to its intersection with $43^{\circ}30'$ north latitude, then proceeding easterly along $43^{\circ}30'$ north latitude to its intersection with the Wisconsin-Michigan state line, then proceeding southerly along the Wisconsin-Michigan state line to its intersection with $43^{\circ}10'$ north latitude, then proceeding westerly along $43^{\circ}10'$ north latitude to its intersection with $87^{\circ}30'$ west longitude, then proceeding southerly along $87^{\circ}30'$ west longitude to its intersection with $43^{\circ}7'$ north latitude, then proceeding westerly along $43^{\circ}7'$ north latitude to its intersection with $87^{\circ}40'$ west longitude and the point of beginning. This area can be further described as the northern third of grid 1903; all of grids 1705, 1803, 1804 and 1805; and the part of grids 1706 and 1806 in Wisconsin waters, and encompasses the elevated areas of lake bed commonly known as the Sheboygan reef and the Northeast reef as shown on the following map.
