b. Applications for permits and tags shall be postmarked no later than the Friday nearest October 1 or received by the department license section, 101 South Webster, Box 7924, Madison, WI 53707, no later than 4:30 p.m. on that Friday each year.

c. If the number of applications for fisher permits exceeds the number available in subd. 2, successful applicants shall be determined by random selection.

e. Each permit shall be numbered to correspond to the applicant's current trapping license and show the applicant's name and tag numbers.

f. No person may apply for more than one fisher permit or one otter permit.

2. Permit quota. a. Fisher quotas shall be primarily based on density estimates derived from annual track counts coupled with home range information based on telemetry data, numbers of fishers trapped during the previous year, and the sex, age and reproductive composition of harvested fishers. The department shall issue trapping permits in sufficient numbers to assure healthy, biological populations for each management zone indicated in subd. d.

b. In each management zone, the number of permits to be issued to harvest the desired numbers of fisher shall be based on an average of the trapper success rates from the most recent 3 previous seasons or by an average of fewer seasons where a 3-year average is not available. In establishing a quota for a zone without an adequate history of permits, the average success rates of similar quota areas shall be applied or the department shall estimate an anticipated success rate.

c. Permit success rates used to compute the number of permits to be issued for each quota shall be those calculated by the department from annual fisher season harvest reports.

The success rate formula is:

$$\text{Success rate} = \frac{\text{Number of fisher harvested}}{\text{Number of permits issued}}$$

The permit number formula is:

$$\text{Permit number} = \frac{\text{Quota fisher to be harvested}}{\text{Trapper success rate}}$$

Unless otherwise authorized by the department, each person who has trapped a fisher shall exhibit the pelt separated from the carcass along with the carcass to an authorized department representative in the county in which the animal was trapped, or in an adjoining county, no later than 5 days after the close of the fisher season. The fisher carcass shall be retained by the department.

NR 10.102 Bear hunting permits. (1) **BEAR QUOTAS.** Bear quotas are based on the status of zone black bear populations in relation to established population goals as determined by inventories.

(a) *Purpose.* The department shall issue bear harvest permits in sufficient numbers to assure maintenance of bear populations for each zone indicated in par. (d).

(b) *Permit formula.* In each black bear management zone, the number of permits to be issued to harvest the desired numbers of bear shall be based on an average of the hunter success rates from the most recent 3 previous seasons or by an average of fewer seasons where a 3-year average is not available. In establishing permits for a zone without an adequate history of permits, the average success rates of similar zones shall be applied or the department shall estimate an anticipated success rate. The permit number formula is:

Register, July, 1989, No. 403

$$\text{Permit number} = \frac{\text{Bear to be harvested}}{\text{Hunter success rate}}$$

(c) *Success rate formula.* Permit success rates used to compute the number of permits to be issued for each zone shall be those calculated by the department from annual bear season harvest reports except where no previous history of success rates exist. The success rate formula is:

$$\text{Success rate} = \frac{\text{Number of bear harvested}}{\text{Number of permits issued}}$$

(d) *Population goals.* This fall, pre-hunt black bear population goal is as follows:

<u>Zone</u>	<u>Population Goal</u>
A	4,100
B	1,600
C	200

(3) **PERMIT ISSUANCE.** The department shall select successful applicants and issue permit approval notices no later than February 15 of each year. Selection shall be by random drawing.

(4) **FEES.** A successful applicant shall submit the appropriate permit fee established by s. 29.092 (2) (kg) or (kr), Stats., to the department before receiving a harvest permit. The fees shall be mailed and postmarked no later than the Friday nearest March 1 or received by the department license section, 101 South Webster, P.O. Box 7924, Madison, WI 53707 no later than 4:30 p.m. on that Friday each year.

(5) **PERMIT ATTACHMENT.** The bear harvest permit shall be attached to the bear hunting license by the applicant immediately upon receipt.

(6) **BEAR PURSUIT.** No licensee may pursue a bear by any method unless that person holds a valid bear harvest permit or is assisting a person who holds a valid bear harvest permit issued under s. 29.1085, Stats.

History: Cr. Register, June, 1986, No. 366, eff. 7-1-86; am. (1) (a) to (d), Register, July, 1987, No. 379, eff. 8-1-87; am. (1), Register, June, 1988, No. 390, eff. 7-1-88; r. and recr. (1) (a), renum. (1) (b) to (e) and (2) to be (2) to (6), Register, October, 1988, No. 394, eff. 1-1-89.

(2) **VALIDATION.** Any person who kills a deer shall immediately separate the issued carcass tag from the back tag and validate the carcass tag by slitting the mark designating the month, day, time of kill and type of deer. Failure to completely validate the carcass tag renders possession of the deer illegal and the carcass tag invalid.

Note: The carcass tag attachment procedures are also provided in s. 29.40 (2), Stats.

History: Cr. Register, Register, September, 1983, No. 333, eff. 10-1-83; r. and recr. Register, September, 1985, No. 357, eff. 10-1-85; renun. from NR 10.102, Register, June, 1986, No. 366, eff. 7-1-86.

NR 10.104 Deer hunting permits. (1) **FINDING.** The natural resources board finds that an additional harvest of deer is necessary to reduce the deer herd to the over-winter population goals established in s. NR 10.01 (3) (e) 9. e. and properly manage the deer herd in the state.

(d) **Group applications.** Group applications up to and including 4 hunters will be honored for deer hunting established in s. NR 10.01 (3) (e) 3. provided each applicant completes the application form and all forms are submitted in one envelope marked "group application" on the outside.

(3) **PERMIT ISSUANCE.** Upon receipt of proper application, the department shall issue permits in the following manner:

(a) **Initial permit.** Successful applicants for hunter's choice or antlerless permits shall be determined by random selection from all eligible applications received for each deer management unit. Permits remaining unissued for any deer management unit after all initial applications have been processed may be issued by the department on a first-come, first-served basis, in accordance with any statutorily established landowner preference permit issuance system, or as established by par. (b).

(b) **Second permit.** If the number of hunters choice or antlerless permits in any management unit exceeds the number of applications for such permits, the department may issue the remaining permits available for that unit as antlerless deer hunting permits only to its successful initial deer hunting permit applicants. Permittees to be issued the second permit shall be randomly selected in accordance with any statutorily established landowner preference permit issuance system.

(4) **PERMIT VALIDATION.** Validation decals numbered to correspond with the permit shall be issued to each successful applicant. The permit holder shall affix a validation decal to his or her current deer registration stub and corresponding back tag immediately upon receipt.

(5) **PERMIT AUTHORITY.** No person may hunt antlerless deer in deer management units described as such in s. NR 10.01 (3) (e) unless he or she possesses a current validated deer hunting permit.

(a) *Hunter's choice deer hunting permit.* Valid for the taking of one deer of either sex or age, except on Chambers Island in Door County where the bag limit shall be one antlerless deer or one buck deer with a forked antler as indicated on the permit.

(b) *Antlerless deer hunting permit.* Valid for the taking of one antlerless deer only.

(7) **DEER HARVEST QUOTAS.** Deer harvest quotas are based on deer management unit populations in relation to established population goals as determined by inventories, the past effect of varying antlerless harvest levels on deer management unit populations, and the estimated impact of the previous winter's severity on deer survival and subsequent fawn production.

(a) *Purpose.* The department shall issue party permits, antlerless permits or hunter's choice permits in sufficient numbers to assure maintenance of overwintering deer populations for each deer management unit indicated in par. (d).

(b) *Permit formula.* In each deer management unit, the number of permits to be issued to harvest the desired number of deer shall be based on the hunter success rate average from the most recent 3 previous seasons or by an average of fewer seasons where a 3-year average is not available. In establishing a harvest quota for a deer management unit without an adequate history of permits, the average success rates of similar deer management unit shall be applied or the department shall estimate an anticipated success rate. The permit number formula is:

$$\text{Permit number} = \frac{\text{Antlerless deer to be harvested}}{\text{Hunter success rate}}$$

(c) *Success rate formula.* Permit success rates used to compute the number of permits to be issued for each deer management unit shall be those calculated by the department from annual deer season harvest statistics except where no previous history of success rates exist. The success rate formula is:

$$\text{Success rate} = \frac{\text{Number of antlerless deer harvested}}{\text{Number permits issued}}$$

(d) *Overwinter goals.* Overwinter population goals expressed in terms of deer per square mile of deer range by deer management unit are as follows:

4. Applicants may indicate preference for any zone and period.

a. Theresa zone permit applicants shall obtain their permits in person at the on-site department stations from 5:30 a.m. to 3:00 p.m. during the open season for Canada goose hunting.

b. Exterior zone applicants may complete and submit the department supplied application form by mail or in person to the address identified on the form or hand delivered to the department license section no later than 4:30 p.m. Monday through Friday during the open season.

1. Permit quantities shall be limited for the Collins, Horicon and Pine Island zones only. All other eligible zone applicants shall receive a permit provided the zone's harvest quota has not been reached.

3. If the number of Collins, Horicon or Pine Island zone permit applications are less than the number of permits available for any time period, the department may issue the remaining permits to successful applicants by random selection and increase the applicant's season bag limit accordingly.

4. Horicon zone permit holders possessing a current, valid permit with an unused carcass tag may also hunt in the Theresa zone provided:

a. The Theresa zone harvest quota has been reached; and

2. Completely attach and seal the paper tag, utilizing its own adhesive, to the neck of the goose.

3. No person may possess or transport a Canada goose unless it is tagged with a validated tag.

(c) *Transportation restrictions.* The hunter shall:
