

Chapter NR 401

NONATTAINMENT AREAS

| | | | |
|------------|---------------------------------------|-----------|------------------------------------|
| NR 401.01 | Applicability; purpose | NR 401.03 | Methodology |
| NR 401.02 | Definitions | NR 401.04 | Compliance requirement |
| NR 401.025 | Nonattainment areas; sources affected | NR 401.05 | Issuance and revision of documents |

NR 401.01 Applicability; purpose. (1) **APPLICABILITY.** This chapter applies to all sources of air contamination and to all owners or operators of an air contaminant source.

(2) **PURPOSE.** This chapter is adopted under ss. 144.31 and 144.371, Stats., to establish procedures and criteria to identify a nonattainment area and to reclassify a nonattainment area as an attainment area.

History: Cr. Register, September, 1986, No. 369, eff. 10-1-86.

NR 401.02 Definitions. The definitions contained in ch. NR 400 apply to the terms used in this chapter.

History: Cr. Register, September, 1986, No. 369, eff. 10-1-86.

NR 401.025 Nonattainment areas; sources affected. (1) **NONATTAINMENT AREAS.** The department may, from time to time, issue documents defining, listing or describing any area of the state where it has determined that any ambient air quality standard for any air contaminant is not being met.

(2) **SOURCES AFFECTED.** Upon issuing documents under sub. (1), the department shall also issue documents identifying, listing or describing air contaminant sources located in or near nonattainment areas, the location or impact of whose emissions require such sources to comply with RACT emission limitations specified in chs. NR 415 to 418.

History: Renum. from NR 154.03 (1) and (2), Register, September, 1986, No. 369, eff. 10-1-86.

NR 401.03 Methodology. The impact of a source's emissions on a nonattainment area shall be determined by the department, using methods including but not limited to ambient air monitoring and meteorological data, and diffusion modeling.

History: Renum. from NR 154.03 (3), Register, September, 1986, No. 369, eff. 10-1-86.

NR 401.04 Compliance requirement. The failure to identify, in a document issued under s. NR 401.025 (2), a specific source in or near a nonattainment area which is otherwise subject to RACT emission limitations shall not relieve such source from compliance.

History: Renum. from NR 154.03 (4), Register, September, 1986, No. 369, eff. 10-1-86.

NR 401.05 Issuance and revision of documents. The department may issue or revise a document under s. NR 401.025 (1) or (2) only after 30 days notice and public hearing in the region affected. Such hearings shall not be contested cases under s. 227.01 (3), Stats.

History: Renum. from NR 154.03 (5), Register, September, 1986, No. 369, eff. 10-1-86.
