**NR 20.01 Purpose; general restriction.** Seasons, bag limits, possession limits and other regulations for fishing in Wisconsin waters are established in this chapter. No person may take, catch, kill or fish for fish of any variety in excess of the daily bag limit, by means other than hook and line, during other than the open season or possess or control any fish in excess of the possession limit or below the minimum size limit, except as expressly provided in this chapter.

**History:** 1-2-56; am. Register, December, 1957, No. 24, eff. 1-1-58; renum. from WCD 20.01 to be NR 20.01, Register, November, 1970, No. 179, eff. 1-1-71; reprinted to correct error, Register, April, 1984, No. 340; r. and recr. Register, November, 1986, No. 371, eff. 12-1-86.

**NR 20.0125 License waiver.** (1) On the first Sunday of June each year, no fishing license is required to fish the inland or outlying waters.

(2) The license waiver of sub. (1) does not apply to commercial fishing license requirements.

**History:** Cr. Register, April, 1987, No. 376, eff. 5-1-87; am. (1), Register, April, 1989, No. 400, eff. 5-1-89.

**NR 20.015 Definitions.** For the purpose of this chapter, the following terms are defined as follows:

(1) "Artificial fly" means a single hook dressed with fur, feathers, hair, silk, tinsel, thread or similar material to imitate the natural food of trout.

(2) "Artificial lure" means a bait designed to attract fish which does not include any natural bait.

(2g) "Backtrolling" means to fish from a motor-driven boat while operating the boat in such a way that the boat is progressing toward the rear.

(2m) "Business day" has the meaning given it in s. 421.301 (6), Stats.

Register, December, 1991, No. 432

(3) "Fisher" means any person engaged in fishing.

(4) "Fishing" includes taking, capturing or killing fish or fishing for fish of any variety at any time in the waters of the state.

(4a) "Muskellunge" means fish of the species *Esox masquinongy* and includes muskellunge - northern pike hybrids.

(4b) "Openly exposed" means open to view by a person in a passing vehicle.

(4d) "Safe harvest" means a level of harvest that incorporates an appropriate margin of safety, estimates of the population and acceptable exploitation rates which will reasonably prevent harvest of more than 35% of the population of adult walleyes or 27% of the population of adult muskellunge. The margin of safety assures that the true safe harvest is not exceeded in more than 1 of 40 cases. For waters where a population estimate has not been made, a regression model based upon population estimates from other waters will be used. The margin of safety used depends upon the age of the population estimate was made and whether a regression model was used.

(4e) "Secretary" means secretary of the department of natural resources.

(4g) "Setline" means a line with one or more hooks fastened to it and designed to be set or left unattended in the water for the purpose of taking fish.

(4t) "Set or bank pole" means a pole equipped with line with one or more hooks fastened to it, designed to be used for fishing from the banks of lakes or rivers and set or left unattended.

(5) "Telemetry device" means any device attached or implanted in fish that transmits a sonic or electronic signal to aid in fishing.

(6) "Unattended line" means a line where the person using the line is not actively directing attention to it. Failure to immediately respond to a line upon indication of a bite shall be prima facie evidence that the line is unattended.

**NR 20.03 Season tables; open and closed seasons, size and bag limits and measurements.** (1) The open seasons specified in the following table apply to fishing in open waters and fishing through the ice, except that the department shall close the season for fishing through the ice in any inland waters when it finds after scientific investigation and study that continued fishing through the ice in specified waters would result in a depletion of the supply of game fish and that a closed season is necessary to conserve the fish supply and insure the citizens of this state continued opportunities for good fishing. The closed seasons shall be put into effect by posting a notice on or in the vicinity of the shore of the waters affected. Posting is deemed by the department to be the most feasible way of notifying the public that a closed season is in effect. The closed seasons shall remain in full force and effect so long as the waters are covered with ice and so long as posting is continued. The department may also, following scientific investigation and study, establish bag limits and size limits on the individual inland waters when it finds that the taking of fish will aid in management of the fishery and insure the citizens of this state additional opportunities for good fishing. Such special regulations shall become effective only after public informational meetings are held. The department may also establish an urban fishing program by posting the open and closed seasons on specified waters. For open seasons in specified waters see s. NR 20.04. The possession limit for each species of fish, except trout as specified in sub. (5), shall be double the daily bag limit specified in this chapter except that no person may have in possession or under control more than the daily bag limit while on the ice or waters or while fishing in the state of Wisconsin. The measurement of all fish taken shall be in a straight line from the tip of the snout to the utmost end of the tail fin fully extended.
