NR 600.07 Special requirements where a discharge has occurred or is likely to occur. (1) The department may require any owner or operator of a recycling facility, or other hazardous waste facility which is otherwise not required to comply with the requirements of chs. NR 630 to 675 and the plan review and licensing requirements of ch. NR 680, to comply with all or part of the requirements of ch. NR 680 where compliance with the requirements is necessary to protect public health, safety or welfare or the environment, if the department determines that:

(a) Hazardous waste or hazardous waste constituents have been discharged at the facility; or

(b) Existing control measures are inadequate to prevent a discharge of hazardous waste or hazardous constituents at the facility.

(2) The department may require any generator or transporter to comply with all or part of the requirements of s. NR 600.05 and chs. NR 630 to 685 where compliance with the requirements is necessary to protect public health, safety or welfare or the environment, if the department determines that:

(a) Hazardous waste or hazardous waste constituents have been discharged since May 20, 1978 at the generation site or transportation service location; or

(b) Existing control measures are inadequate to prevent a discharge at the generation site or transportation service location.
