DOD 22.03 Primary care shortage area. (1) Pursuant to s. 560.183 (7), Stats., the department shall identify as a primary care shortage area any geographical area that conforms to the definition in s. DOD 22.02 (3) and that meets one of the following:

- (a) Contains a population which has limited access to contiguous area primary medical care as measured by a travel time of 30 minutes or more for the majority of persons residing in the area to reach such contiguous area primary medical care.
- (b) Contains a population which has limited access to contiguous area primary medical care because there is an unusually high percentage of non-english speaking persons or an unusually high percentage of households with incomes below the poverty level and neither medicaid covered nor public primary medical care are available in a contiguous area.

History: Cr. Register, November, 1991, No. 431, eff. 12-1-91.

DOD 22.04 Obstetric shortage area. Pursuant to s. 560.183 (7), Stats., the department shall identify as an obstetric shortage area any geographic area that conforms

to the definition in s. DOD 22.02 (2), that contains a population with limited access to contiguous area obstetric care as provided in s. DOD 22.03 (1) (a) or (b) and that meets one of the following:

- (1) Has a ratio of population to obstetric care providers greater than 11,000 to 1.
- (2) Faces an impending loss of existing obstetric care.
- (3) Has a need for additional obstetric care identified by existing area obstetricians or primary care physicians who also provide obstetric care.
- (4) At least 67% of the pregnant women who reside in the area obtain obstetric care outside of the proposed obstetric shortage area.
