**ASSEMBLY SUBSTITUTE AMENDMENT 1,
TO 2011 ASSEMBLY BILL 248**

September 15, 2011 - Offered by Representative PETROWSKI.

1 **AN ACT** *to amend* 348.25 (3), 348.25 (4) (intro.), 348.27 (1) and 348.28 (1); and
2 *to create* 348.27 (16) of the statutes; **relating to:** annual or consecutive month
3 permits for vehicles transporting overheight loads of hay or straw and other
4 vehicles, providing an exemption from emergency rule procedures, and
5 granting rule-making authority.

Analysis by the Legislative Reference Bureau

Under current law, with limited exceptions, no person may operate upon a highway any vehicle or combination of vehicles that exceeds certain statutory size or weight limits unless the person obtains a permit issued by the Department of Transportation (DOT) or a local authority, as applicable. With exceptions, a permit may not be issued for transporting oversize loads if the load can be reasonably divided or reduced to comply with statutory limits. The generally applicable height limit on highways is 13.5 feet.

This substitute amendment allows DOT to issue annual or consecutive month permits for vehicles or vehicle combinations (vehicles) transporting loads of hay or straw that exceed the statutory height limitation of 13.5 feet but do not exceed 14.5 feet if the vehicle is being operated on a highway in an urban area or 15 feet if the vehicle is being operated on any other highway. If the route involves highways that

are not state trunk highways, the permit application must be accompanied by a written statement of route approval by the officer in charge of maintenance of the local highway. DOT may issue these permits regardless of whether the load being transported is divisible. Permit applications must be made electronically to DOT utilizing an electronic process prescribed by DOT, such as its electronic application and routing system. DOT must promulgate rules defining "urban area" for purposes of these permits and may promulgate rules regulating the configuration of the loads carried under these permits and how these loads are to be secured for safe travel.

Under current law, DOT or a local authority may, for good cause and under certain circumstances, issue a permit (general permit) authorizing the transportation of loads exceeding otherwise applicable size or weight limitations. This substitute amendment specifies that a general permit may be issued regardless of whether the load being transported is divisible.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
