ACT MEMO

Prepared by: Dan Schmidt, Deputy Director

July 12, 2021

2021 Wisconsin Act 66 [2021 Senate Bill 70]

Disclosure of Information Regarding State Revenue

2021 Wisconsin Act 66 requires the Department of Revenue (DOR) to display information regarding general purpose revenues (GPR) on its website. The information must be presented in readily understandable formats that the DOR determines will provide taxpayers of this state with a useful overview of the amounts of GPR collected and the purposes for which the amounts are spent. The information must include visual representations of data relating to the amounts of revenue collected by source and the general purposes for which the amounts are spent. The information must also include a breakdown of the sources of GPR by year and other information the department determines is useful for taxpayers in understanding where and how the amounts collected are spent. DOR may include information relating to other revenue types if DOR determines the information is useful in meeting the purpose of the act and may work with the Department of Administration to gather the necessary information. The act also requires that DOR's e-filing web page prominently link to the web page containing the information required by the act and to the existing local government dashboard.

Effective date: January 1, 2022
