Analysis by the Legislative Reference Bureau

This bill increases the bond refunding authority of the building commission. Refunding authority is used to refinance state debt by paying state debt prior to maturity and issuing new state debt at a lower interest rate. The authority to refund general obligation debt paid from general purpose revenue is increased by \$100,000,000 to a new total of \$1,740,000,000. The authority to refund self-amortizing general obligation debt paid from program revenue or segregated funds is increased by \$15,000,000 to a new total of \$180,000,000.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
