

1995 SENATE BILL 399

November 1, 1995 – Introduced by Senator MOEN, cosponsored by Representatives GROBSCHMIDT, GRONEMUS and RYBA. Referred to Joint survey committee on Tax Exemptions.

1 **AN ACT to amend** 71.07 (5) (a) 15.; and **to create** 71.05 (6) (b) 22. of the statutes;
2 **relating to:** an individual income tax exemption for payments for medical care
3 insurance.

Analysis by the Legislative Reference Bureau

Under current law, and subject to some limitations, 100% of the amount paid by a self-employed individual for medical care insurance for the individual, his or her spouse and the individual's dependents, are exempt from income taxation. The limitations are based on amounts the person has already deducted from federal adjusted gross income and the amount of the person's taxable net earnings from a trade or business. Subject to the same limitations, this exemption may also be claimed by certain persons who are the employes of another person, up to 50% of the amount paid by the individual, for medical care insurance for the individual, his or her spouse and the individual's dependents.

Under this bill, for persons who do not claim either of these exemptions, 100% of the amount paid by an individual for medical care insurance for the individual, his or her spouse and the individual's dependents, are exempt from income taxation if the person pays for the insurance with unearned income and the person has no net earnings from a trade or business that are taxable by this state. The exemption is subject to some limitations based on amounts the person has already deducted from federal adjusted gross income and the amount of the person's unearned income.

This bill will be referred to the joint survey committee on tax exemptions for a detailed analysis, which will be printed as an appendix to this bill.
