### ***Analysis by the Legislative Reference Bureau***

This bill establishes a program under which the department of natural resources (DNR) awards grants to reimburse political subdivisions (cities, villages, towns and counties) for a portion of the costs of investing and remedying environmental pollution caused by landfills owned by political subdivisions. A grant may not exceed 50% of the eligible costs that a political subdivision incurs or \$2,000,000, whichever is less. A political subdivision that receives a grant must reimburse DNR for the costs DNR incurs in evaluating the political subdivision's application and making the grant to the political subdivision.

The bill provides \$10,000,000 in general obligation bonding authority for the grant program. This bill also imposes a 30-cent per ton municipal landfill cleanup fee on solid waste disposed of at municipal waste landfills.
