1 **AN ACT to amend** 111.93 (3); and **to create** 230.35 (3) (e) 6. of the statutes;
2 **relating to:** the provision of specialized disaster relief services by represented
3 state employes.

Analysis by the Legislative Reference Bureau

Under current law, the department of employment relations operates a program under which a state employe may be granted a leave of absence to help provide specialized disaster relief services through the American Red Cross. Such services include professional, technical or other services that require advanced training or expertise and that are provided to assist persons affected by a disaster. Currently, the employe's appointing authority may grant a leave of absence to an employe if the employe is a certified disaster service volunteer of the American Red Cross, the American Red Cross makes a written request for the services of the employe to the employe's appointing authority and the employe has successfully completed his or her probationary period and has permanent employe status, if the employe's position is included in the classified service.

Under current law, this program permits a leave of absence to provide specialized disaster relief services for not more than 30 work days each year. An employe who is granted a leave of absence to help provide disaster relief services is entitled to his or her base rate of pay during the leave of absence. A leave of absence to provide disaster relief services does not affect the employe's earning of paid annual leave (vacation), sick leave or retirement benefits. Also, for purposes of calculating seniority, pay or pay advancement and performance awards, the time during which

an employe is on a leave of absence to help provide disaster relief services counts as time served in the state service.

Under current law, because this program affects the wages, fringe benefits, hours or conditions of employment of represented state employes, the program only applies to represented state employes to the extent provided in their collective bargaining agreements. This bill requires that the program apply to represented state employes unless their collective bargaining agreements provide otherwise.
