February 29, 2000 - Introduced by Representatives BERCEAU, MUSSER, RILEY, GUNDERSON and HASENOHRL, cosponsored by Senator BURKE. Referred to Committee on Transportation.

1 **AN ACT to create** 347.435 of the statutes; **relating to:** handles and locks on doors
2 leading to the passenger compartment of certain passenger vehicles.

Analysis by the Legislative Reference Bureau

This bill prohibits the owner or lessee of a larger passenger vehicle from permitting the operation of the vehicle unless each door leading to the passenger seating compartment is equipped with a handle that is operable from within the compartment. The bill also requires that each lock on a door leading to the passenger seating compartment be operable from within the compartment. These requirements apply only to motor vehicles designed or intended to transport the operator and at least 6 but not more than 14 passengers. No demerit points may be assessed against an owner or lessee who violates these requirements, unless the owner or lessee was operating the vehicle at the time of the violation. The bill does not prohibit the use of child safety door latches that are the original equipment of the vehicle's manufacturer. The bill does not apply to police vehicles.
