### *Analysis by the Legislative Reference Bureau*

Federal law authorizes the federal Environmental Protection Agency (EPA) to make grants to states and local governments to establish revolving loan programs for brownfields revitalization. Brownfields are sites the redevelopment or reuse of which may be complicated by the presence or potential presence of environmental contamination. The recipient of a federal grant may use the grant to provide loans or, in some cases, grants for the cleanup of brownfields.

This bill authorizes the Department of Natural Resources (DNR) to enter into an agreement with EPA to establish and administer a brownfields revolving loan program under which DNR would make loans or grants for the cleanup of brownfields. The bill also authorizes DNR to administer funds received from EPA by another governmental entity for the establishment of a brownfields revolving loan program.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
