### *Analysis by the Legislative Reference Bureau*

Current law prohibits an insurer that issues a motor vehicle insurance policy that covers the repair or replacement of motor vehicle glass from conditioning the coverage on whether the insured or a third party making a claim under the policy obtains services or parts from a particular vendor specified by the insurer. This bill expands that prohibition.

Under the bill, an insurer that issues a motor vehicle insurance policy that covers the repair of a motor vehicle may not condition that coverage on whether the insured or a third party making a claim under the policy obtains services or parts from a particular garage, repair shop, or other vendor specified by the insurer. In addition, if an insured or third party makes a claim for the repair of a motor vehicle, the insurer must inform the insured or third party that they may select any garage, repair shop, or other vendor for the repair and that the insurer will cover the reasonable costs of the repair regardless of which garage, repair shop, or other vendor they select. The insurer also must inquire whether the insured or third party has selected a garage, repair shop, or other vendor for the repair and may make a

referral to a garage, repair shop, or other vendor if the insured or third party requests a referral.
