November 14, 2011 - Introduced by Representatives POPE-ROBERTS, TURNER, BERCEAU, SPANBAUER and BEWLEY, cosponsored by Senators C. LARSON and TAYLOR. Referred to Committee on Housing.

1     **AN ACT** *to create* 704.47 and 709.03 (form) D. 1m. of the statutes; **relating to:**  
2     disclosure of radon testing.

---

### *Analysis by the Legislative Reference Bureau*

Under current law, with certain exceptions, owners selling residential real property must give prospective buyers a form, known as a real estate condition report, on which the owner discloses certain conditions of, and other information about, the real property of which the owner is aware. Among other things, the real estate condition report currently requires that an owner disclose whether he or she is aware of a defect caused by unsafe concentrations of, or unsafe conditions relating to, radon.

This bill requires an owner to disclose on the real estate condition report whether the real property has been tested for the presence of radon and, if so, the dates and results of the test. The bill also requires a landlord of residential rental property to disclose to any prospective tenant in writing whether the rental property has been tested for radon and, if so, what the results of the test were.
