Analysis by the Legislative Reference Bureau

This bill requires the Department of Children and Families, by January 1, 2017, to develop and implement a model procedure to be used in the investigation of reports of suspected or threatened abuse or neglect of a child with a disability. The bill requires the model procedure, at a minimum, to include all of the following:

1. A requirement that each county department of human services or social services, each licensed child welfare agency under contract with DCF or such a county department, or, in a county having a population of 500,000 or more, the subunit of DCF that conducts child abuse and neglect investigations (collectively, "agency"), on receipt of a report of suspected or threatened abuse or neglect, ask the reporter whether the child who is the subject of the report is a child with a disability.

2. Procedures for agencies to use to identify and address any specific categories of disabilities that a child with a disability reported to the agency may have.

3. Procedures to ensure that each agency is in compliance with the Americans with Disabilities Act. Those procedures must include reasonable modifications to the rules, policies, and practices of the agency, the removal of architectural, communication, and transportation barriers, and the provision of auxiliary aids and services as necessary to enable a person with a disability to receive the services or participate in the programs or activities provided by the agency.

8. Plans for the training of agency staff in the implementation of the model procedure.

The bill also requires each agency, by July 1, 2017, to adopt a procedure for the investigation of reports of suspected or threatened abuse or neglect of children with disabilities, which procedure may consist of the model procedure developed by DCF.
