#### Analysis by the Legislative Reference Bureau

Currently, a person may claim a tax credit on the basis of the person's income from manufacturing or agriculture. This bill limits to \$300,000 the amount of income from manufacturing that a person may use as the basis for claiming the credit.

The bill also requires the Department of Revenue to estimate the increase in revenue in 2021 that results from the changes made in this bill and directs the secretary of the Department of Administration to apply that amount to aid to school districts for special education for the fiscal year beginning July 1, 2021.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
