

2021 ASSEMBLY BILL 905

January 21, 2022 - Introduced by Representatives ZIMMERMAN, KUGLITSCH, MAGNAFICI, MILROY and MOSES, cosponsored by Senators STAFSHOLT and FELZKOWSKI. Referred to Committee on Local Government.

- 1 **AN ACT** *to renumber and amend* 31.385 (2) (a) 2.; and *to amend* 31.385 (2) (a)
2 1. (intro.) and 31.385 (2) (ad) (intro.) of the statutes; **relating to:** financial
3 assistance limits for dam removal.

Analysis by the Legislative Reference Bureau

This bill provides that the cost limits for dam safety projects created in the 2021-23 biennial budget act (2021 Act 58) do not apply to a project to remove a dam.

Under current law, the state may contract public debt to provide financial assistance to counties, cities, villages, towns, and public inland lake protection and rehabilitation districts for maintenance, repair, modification, abandonment, or removal of a dam. Prior to 2021 Act 58, financial assistance for a dam safety project was limited to no more than 50 percent of the first \$400,000 of costs of the project and no more than 25 percent of the costs of the project that exceed \$400,000. The total amount of financial assistance for a dam safety project was limited to no more than \$400,000. However, these limits did not apply to a project to remove a dam.

2021 Act 58 provides that, beginning in the 2021-22 fiscal year, financial assistance for a dam safety project is limited to no more than 50 percent of the first \$1,000,000 of costs of the project and no more than 25 percent of the costs of the project that exceed \$1,000,000. The total amount of financial assistance for a dam safety project is limited to no more than \$1,000,000. 2021 Act 58 did not include a provision exempting dam removal from these financial limits.
