1 **AN ACT to amend** 16.855 (9m) (b) 1. a. of the statutes; **relating to:** qualified  
2 bidders on state projects.

---

*Analysis by the Legislative Reference Bureau*

Under current law, among other requirements, to be certified as a qualified bidder on state projects, a bidder must demonstrate that the bidder has completed at least one project similar to, and at least 50 percent the size or value of, the division of the project being bid.

The bill replaces this requirement with a requirement that to be certified as a qualified bidder the bidder must demonstrate that the bidder is bondable for the term of the proposed contract and is able to obtain both a 100 percent performance bond and a 100 percent payment bond. Also under the bill, the Department of Administration may not require a bidder to have experience that is not specific to the project being bid in order to be certified as a qualified bidder.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
