1     **Relating to:** proclaiming November 2021 to be Pancreatic Cancer Awareness  
2           Month.

3           Whereas, this year, an estimated 60,430 adults in the United States will be  
4     diagnosed with pancreatic cancer; and

5           Whereas, it is estimated that 48,220 deaths from this disease will occur this  
6     year; and

7           Whereas, pancreatic cancer is the eighth most common cancer in women and  
8     the tenth most common cancer in men; and

9           Whereas, this year, it is estimated that there will be 890 deaths from pancreatic  
10    cancer in Wisconsin; and

11          Whereas, pancreatic cancer is the third-leading cause of cancer deaths in the  
12    United States and Wisconsin; and

13          Whereas, the good health and well-being of the residents of Wisconsin are  
14    enhanced as a direct result of increased awareness about pancreatic cancer and  
15    research in early detection, causes, and effective treatments; now, therefore, be it
