

State of Wisconsin
2023 - 2024 LEGISLATURE

LRB-0477/1
MDE:skw

2023 ASSEMBLY BILL 893

January 4, 2024 - Introduced by Representatives SORTWELL, BEHNKE, GOEBEN, MURPHY, SCHMIDT and SCHRAA. Referred to Committee on Consumer Protection.

- 1 **AN ACT to create** 100.75 of the statutes; **relating to:** prohibiting social media
2 website censorship of journalistic enterprises.

Analysis by the Legislative Reference Bureau

This bill prohibits a social media website from censoring, deplatforming, or shadow banning a journalistic enterprise on the basis of the content of its publication or broadcast. The bill applies to social media websites or applications that enable users to communicate with each other and that have more than 150 million users. The bill defines a “journalistic enterprise” as an entity that publishes more than 10,000 words online with at least 5,000 paid subscribers or 10,000 monthly active users, publishes more than 100 hours of audio or video online with at least 100 million viewers annually, operates a cable television channel that provides more than 40 hours of content per week to more than 100,000 cable television subscribers, or operates under a broadcast license issued by the Federal Communications Commission.

Under the bill, a social media website must also provide a mechanism for a journalistic enterprise to request the number of other individual users who were provided or shown the journalistic enterprise’s content or posts, and to provide that number to the journalistic enterprise upon request.

The bill also allows a journalistic enterprise to bring a private cause of action against a social media website if the website violates the bill’s requirements. The bill provides that, in a private cause of action, a court may award statutory damages of up to \$100,000 for each proven violation, actual damages, punitive damages if aggravating factors exist, other forms of equitable relief, and costs and attorney fees.

ASSEMBLY BILL 893

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 **SECTION 1.** 100.75 of the statutes is created to read:

2 **100.75 Social media website censorship of journalistic enterprises. (1)**

3 DEFINITIONS. In this section:

4 (a) “Algorithm” means a mathematical set of rules that specifies how a group
5 of data behaves that will assist in ranking search results and maintaining order or
6 that is used in sorting or ranking content or material on the basis of relevancy or
7 other factors instead of using published time or chronological order of such content
8 or material.

9 (b) “Censor” includes any action taken by a social media website to delete,
10 regulate, restrict, edit, alter, inhibit the publication or republication of, suspend a
11 right to post, remove, or post an addendum to any content or material posted by a
12 journalistic enterprise. “Censor” also includes actions to inhibit the ability of a
13 journalistic enterprise to be viewable by or to interact with another user of the social
14 media website.

15 (c) “Deplatform” means to delete or ban a journalistic enterprise from a social
16 media website for more than 60 days.

17 (d) “Journalistic enterprise” means an entity that does any of the following:

18 1. Publishes more than 10,000 words that are available online with at least
19 5,000 paid subscribers or 10,000 monthly active users.

20 2. Publishes more than 100 hours of audio or video that are available online
21 with at least 100 million viewers annually.

ASSEMBLY BILL 893

1 3. Operates a cable television channel that provides more than 40 hours of
2 content per week to more than 100,000 cable television subscribers.

3 4. Operates under a broadcast license issued by the federal communications
4 commission.

5 (e) “Post prioritization” means an action by a social media website to place,
6 feature, or prioritize certain content or material ahead of, below, or in a more or less
7 prominent position than other content in a newsfeed, feed, view, or search results.
8 “Post prioritization” does not include actions toward such content or material that
9 are based on payments by a 3rd party, including other users, to the social media
10 website. “Post prioritization” also does not include any action toward a journalistic
11 enterprise’s posted content or material that is taken at the request of that
12 journalistic enterprise.

13 (f) “Shadow ban” means to limit or eliminate the exposure of a journalistic
14 enterprise, or content or material posted by a journalistic enterprise, to other users
15 of the social media website through any means, regardless of whether the action is
16 determined by an individual or an algorithm, and regardless of whether the action
17 is readily apparent to a user.

18 (g) “Social media website” means a website or application that enables users
19 to communicate with each other by posting information, comments, messages, or
20 images and to which all of the following apply:

21 1. The website or application is available to the public.

22 2. The website or application has more than 150 million users.

23 (h) “User” means a person who subscribes to or has an account on a social media
24 website, regardless of whether the person posts or has posted content or material to
25 the social media website.
