1 **AN ACT** *to create* 302.081 and 302.082 of the statutes; **relating to:** recreational
2 opportunities and structured programming for inmates in state correctional
3 institutions and county jails and houses of correction.

Analysis by the Legislative Reference Bureau

This bill requires the Department of Corrections to ensure that all state correctional institutions provide, and sheriffs to ensure that all county jails and houses of correction provide, recreational opportunities and organized, structured programming that is relevant to the interests and needs of the inmates being held in the state correctional institutions, jails, and houses of correction.

The bill also requires that when staffing levels meet or exceed 80 percent for officer staffing and structured programming staffing, each inmate is allowed at least 35 hours per week to engage in recreational opportunities and structured programming with an average of at least five total hours per day for such activities and programming, and if such staffing levels are less than 80 percent, each inmate is allowed at least 21 hours per week to engage in recreational opportunities and structured programming with an average of at least three total hours per day for such activities and programming. Of the 35 or 21 hours per week, each inmate must be allowed at least seven hours per week to engage in recreational opportunities and at least 14 hours per week to engage in structured programming, of which at least five hours must be structured programming other than work experience. Under the bill, recreation and structured programming privileges may be denied for a period of up to 10 consecutive days if the inmate is subject to a partial or full prison or jail lockdown or is currently being held in solitary confinement.
