20.001 Definitions and abbreviations. In s. 20.005 terms and abbreviations shall have the following meanings:

(1) Unassigned revenues are revenues which are paid into a state fund, lose their identity, and are then available for appropriation by the legislature. Such revenues constitute "executive budget revenues".

(2) Assigned revenues are revenues which are paid into a state fund and are credited by statute to an appropriation to finance a specified activity or agency. Such revenues constitute "revolving budget revenues".

(3) Annual appropriations are appropriations which are expendable only for the fiscal year for which made. At the end of the fiscal year unexpended balances revert to the fund from which appropriated.

(4) Sum sufficient appropriations are appropriations which are expendable in the amounts necessary to accomplish the purpose specified; such budgeted amounts represent the most reliable estimates obtainable. They are indicated by the abbreviation S in s. 20.005.

(5) Biennial appropriations are appropriations which are expendable only for the biennium for which made. At the end of the biennium unexpended balances revert to the fund from which appropriated. They are indicated by the abbreviation B in s. 20.005.

(6) Continuing appropriations are appropriations which are expendable until fully depleted or repealed by subsequent action of the legislature. They are indicated by the abbreviation C in s. 20.005.

(7) Revolving appropriations are appropriations of assigned revenues as set forth in sub. (2); they are continuing unless otherwise provided by statute.

History: 1953 c. 251.

20.002 Construction of appropriation statutes. (1) **EFFECTIVE PERIOD OF APPROPRIATIONS.** Unless otherwise provided, appropriations shall become effective on July 1 of the fiscal year for which made and shall be expendable until the following June 30. If the executive budget for any biennium does not become effective on or before July 1 of the odd-numbered year, the appropriations provided for the preceding fiscal year shall be in effect in the new fiscal year until amended or eliminated by the legislature.

(2) **ALLOCATIONS.** Unless otherwise provided, the itemization by the legislature of a total appropriation into personal services, materials and expense, and capital outlay is an allocation for those purposes and a limitation on the amount that may be expended for each such purpose.

History: 1953 c. 251.

20.003 Appropriation acts and bills. (1) All appropriations made by the legislature shall be listed in ch. 20. The revisor of statutes shall assign numbers in ch. 20 to any appropriations not so numbered.

(2) All bills making sum sufficient appropriations shall incorporate an estimate of the cost. Such estimate shall be made by the agency receiving the appropriation.

(3) If an appropriation bill is similar (except for amount) to another appropriation bill or bills, the chief of the legislative reference library shall indicate that fact by note to the appropriation bill, giving the numbers of the other bills.

History: 1953 c. 251.

20.004 Revenue bills. Any bill increasing or decreasing state revenue shall incorporate an estimate of the anticipated change in revenue under the provisions of the bill. Such estimate shall be made by the agency responsible for collecting the revenue.

Appropriations of receipts and of a sum sufficient shall for the purposes of this section be regarded as equivalent to the amounts expended thereunder in the prior fiscal year which ended June 30. It is the intent of this section that all functions of said departments shall be continued in an efficient manner, but because of the uncertainties of the existing situation it is necessary that no public funds be expended

or obligations incurred unless there shall be adequate revenues to meet the expenditures therefor. For such reasons the emergency board shall, if it deems it necessary, make such reductions of such appropriations as in its judgment will secure sound financial operations of the government for said departments and at the same time interfere least with their services and activities.

(2) No reduction in any such appropriation shall be made under authority of this section until after an opportunity to be heard is given, in writing or through publication in the official state paper, to the department, board, commission, bureau or university to whom such appropriation is made. Any reduction in appropriations determined upon shall be communicated to the department, board, commission, bureau or university affected, and to the director of budget and accounts. If the provision relating to release by the emergency board is invalid, the appropriation or portion of the appropriation which is subject to such release shall not be invalidated but shall be considered to be made without any condition as to time or manner of release.
