**29.03 Wildlife violator compact. (1) ARTICLE I — FINDINGS, DECLARATION OF POLICY, AND PURPOSE.** (a) The participating states find all of the following:

1. Wildlife resources are managed by the respective states for the benefit of all residents and visitors.
2. The protection of wildlife resources of a state is materially affected by the degree of compliance with state laws, regulations, ordinances, resolutions, and administrative rules relating to the management of those resources.
3. The preservation, protection, management, and restoration of wildlife resources contribute immeasurably to the aesthetic, recreational, and economic aspects of those natural resources.
4. Wildlife resources are valuable without regard to political boundaries; therefore, every person should be required to comply with wildlife resource preservation, protection, management, and

restoration laws, regulations, ordinances, resolutions, and administrative rules of the participating states as a condition precedent to the continuance or issuance of any approval to hunt, fish, trap, or possess wildlife.

5. Violation of wildlife resource laws interferes with the management of wildlife resources and may endanger the safety of persons and property.

6. The mobility of many violators necessitates the maintenance of channels of communication among the various states.

7. Usually, if a person is cited for a wildlife violation in a state other than the person's home state, one or more of the following occur:

a. The violator is required to post collateral or a bond to secure appearance for a trial at a later date.

b. The violator is taken into custody until the collateral or bond is posted.

c. The violator is taken directly to court for an immediate appearance.

8. The purpose of the enforcement practices described in subd. 7. is to ensure compliance with the terms of a wildlife citation by the violator who, if permitted to continue on his or her way after receiving the citation, could return to his or her home state and disregard the terms of the citation.

9. Usually, a person receiving a wildlife citation in his or her home state is permitted to accept the citation from the officer at the scene of the violation and immediately continue on his or her way after agreeing or being instructed to comply with the terms of the citation.

10. The enforcement practices described in subd. 7. may cause unnecessary inconvenience and hardship for the violator who is unable at the time to post collateral, furnish a bond, stand trial, or pay a penalty, and thus is compelled to remain in custody until some alternative arrangement is made.

11. The enforcement practices described in subd. 7. consume an undue amount of law enforcement time.

(b) It is the policy of the participating states to do all of the following:

1. Promote compliance with the laws, regulations, ordinances, resolutions, and administrative rules relating to management of wildlife resources in their respective states.

2. Recognize the suspension of wildlife license privileges of any person whose license privileges have been suspended by a participating state and treat the suspension as if it had occurred in the home state.

3. Allow a violator, except as provided in sub. (3) (b), to accept a wildlife citation and, without delay, proceed on his or her way, whether or not a resident of the state in which the citation was issued, if the violator's home state is party to this compact.

4. Report to the appropriate participating state, as provided in the compact manual, any conviction recorded against a violator whose home state was not the issuing state.

5. Allow the home state to recognize and treat a conviction recorded against a resident, which occurred in a participating state other than the home state, as though the conviction had occurred in the home state.

6. Extend cooperation to its fullest extent among the participating states for enforcing compliance with the terms of a wildlife citation issued in one participating state to a resident of another participating state.

7. Maximize effective use of law enforcement personnel and information.

8. Assist court systems in the efficient disposition of wildlife violations.

(c) The purpose of this compact is to do all of the following:

1. Provide a means through which participating states may join in a reciprocal program to effectuate the policies enumerated in par. (b) in a uniform and orderly manner.

2. Provide for the fair and impartial treatment of violators in all participating states in recognition of the violator's right to due process and the sovereign status of a participating state.

(b), if the officer receives the recognition of the violator that he or she will comply with the terms of the citation.

Due process safeguards shall be accorded.

(b) Upon receipt of a report of conviction from the licensing authority of the issuing state, the licensing authority of the home state shall enter the conviction in its records and shall treat the conviction as though it occurred in the home state for the purposes of the suspension of license privileges.

(3) To control chronic wasting disease, the department may promulgate rules regulating the transportation, possession, control, storage, or disposal of the carcass of a cervid in this state, except that the rules may not apply to any of the following:

(c) The department or the department of agriculture, trade and consumer protection may enter into an agreement under par. (b) only if all of the following apply:

1. The governor approves the agreement.

2. The agreement specifies a method for determining whether the landfill, meat processing facility, or wastewater treatment facility is liable for damage described in par. (b).

3. The agreement requires the landfill, meat processing facility, or wastewater treatment facility to notify the department that entered into the agreement and the attorney general when a claim or lawsuit to which the agreement may apply is filed.

4. The agreement authorizes the attorney general to intervene on behalf of the landfill, meat processing facility, or wastewater treatment facility and this state in any lawsuit to which the agreement may apply.

5. The agreement requires the owner or operator of the landfill, meat processing facility, or wastewater treatment facility to minimize risks related to processing or disposal of carcasses of cervids and farm-raised deer that have chronic wasting disease.

6. The agreement authorizes the department that entered into the agreement to require the owner or operator of the landfill, meat processing facility, or wastewater treatment facility to operate in a manner specified in writing by that department to minimize risks related to processing or disposal of carcasses of cervids and farm-raised deer that have chronic wasting disease.

(d) This subsection and any agreement entered into under par. (b) may not be construed as consent to sue this state.

(e) If a claim is filed under an agreement under par. (b), the department that entered into the agreement shall review the claim to determine whether it is valid. A valid claim shall be paid from the appropriation under s. 20.370 (1) (hc).

### SUBCHAPTER III

#### HUNTING, TRAPPING AND FISHING APPROVALS

**29.161 Resident small game hunting license. (1)** A resident small game hunting license shall be issued subject to ss. 29.024 and 54.25 (2) (c) 1. d. by the department to any resident applying for this license. The resident small game hunting license does not authorize the hunting of bear, deer, elk, or wild turkey.

**(2)** A resident small game hunting license authorizes hunting with a firearm, airgun, or bow and arrow or with a crossbow if the holder of the license has a Class A, Class B, or Class C permit issued under s. 29.193 (2) that authorizes hunting with a crossbow, has a crossbow permit issued under s. 29.171 (4) (a), or has attained the age of 65 years.

**History:** 1973 c. 90 s. 538; 1973 c. 315; 1979 c. 34; 1983 a. 27; 1991 a. 39; 1997 a. 27; 1997 a. 248 s. 193; Stats. 1997 s. 29.161; 2001 a. 109; 2005 a. 387; 2009 a. 119.  
**Cross-reference:** See also ss. NR 10.12, 10.125, and 10.26, Wis. adm. code.

**29.164 Wild turkey hunting approvals. (1) DEFINITIONS.** As used in this section:

(a) “Family member” means a person who is related to another person as a parent, child, spouse or sibling.

(b) “Landowner” means the owner of record of a parcel of land or the purchaser of land under a land contract who has the right to occupy and the right to use the land.

(c) “Operator” means a resident who is residing on a parcel of land under a rental agreement, lease, agreement or contract and who is engaged in farm activities or other operations on the land.

(d) “Resident applicant” includes a qualified resident landowner who applies for a wild turkey hunting license.

**(2) AUTHORIZATION; RESTRICTIONS.** (a) *Department authority.* The department may regulate and limit the hunting of wild turkeys by issuing licenses under this section.

(b) *Type of hunting authorized.* A license issued under this section authorizes hunting with a firearm or bow and arrow or with a crossbow if the holder of the license has a Class A, Class B, or Class C permit issued under s. 29.193 (2) that authorizes hunting with a crossbow or has a crossbow permit issued under s. 29.171 (4) (a), or has attained the age of 65 years.

(c) *Requirements.* 1. No person may hunt wild turkey unless he or she has a valid wild turkey hunting license and a valid wild turkey hunting stamp attached to or imprinted on the person’s wild turkey hunting license in the manner required by the rule promulgated under s. 29.024 (5) (a) 3.

2. If the department establishes a wild turkey hunting zone where or a season time period during which wild turkey hunting is permitted, no person may hunt wild turkeys in that wild turkey hunting zone or during that season time period unless the person has a wild turkey hunting license and a valid wild turkey hunting stamp as required under subd. 1. and unless the person has a wild turkey hunting tag that is valid for that zone and that time period.

(d) *Exception.* Any person holding a senior citizen recreation card or a conservation patron license is exempt from the requirements under par. (c) if the person has received a notice of approval under sub. (3) (e) and the person is exempt from paying the fee for the wild turkey hunting license.

**(3) WILD TURKEY HUNTING LICENSES.** (a) *Cumulative preference system.* 1. If the department requires wild turkey hunting licenses under sub. (2) (a) and the number of applications for wild turkey hunting tags for a given wild turkey hunting zone or a given wild turkey hunting season time period exceeds the number of available wild turkey hunting tags allocated by the department for that zone or that season time period, the department shall issue

wild turkey hunting licenses and tags for that zone or that season time period according to the cumulative preference system under this subsection.

2. If the department requires wild turkey hunting licenses under sub. (2) (a) and the number of applications for wild turkey hunting tags for a given wild turkey hunting zone or a given wild turkey hunting season time period does not exceed the number of available wild turkey hunting tags allocated by the department for that zone or that season time period, the department shall issue a wild turkey hunting license and tag to each applicant.

(b) *Qualified resident landowners.* 1. The department shall create a first preference category in the issuance of wild turkey hunting licenses to applicants who are qualified resident landowners. The number of licenses issued under this paragraph for a season for an established wild turkey hunting zone may not exceed 30% of all licenses issued for that season for that zone.

2. For purposes of subd. 1., a qualified resident landowner is a resident who owns at least 50 acres in one parcel in an established wild turkey hunting zone. If more than one individual is the landowner of a single parcel of land, only one individual may be considered a qualified resident landowner.

3. A qualified resident landowner may assign his or her eligibility to apply for a wild turkey hunting license under this paragraph as a qualified resident landowner to a family member, to an operator, to a family member of the operator, or to a minor. A qualified resident landowner may not receive any consideration for the assignment of his or her eligibility under this subdivision. The department may specify the procedures and forms which are required to be followed and completed to effect this assignment. After this assignment, the assignee may apply for a wild turkey hunting license under this paragraph as a qualified resident landowner and the qualified resident landowner who assigned his or her eligibility may not so apply.

(c) *Second preference.* The department shall create a 2nd preference category in issuing wild turkey hunting licenses to resident applicants who in a previous season applied for but were not issued wild turkey hunting licenses:

1. For the previous season if the department establishes one open season per year; or

2. For the previous corresponding season if the department establishes more than one open season per year.

(cg) *Third preference.* The department shall create a 3rd preference category in issuing wild turkey hunting licenses to all other resident applicants.

(ci) *Fourth preference.* The department shall create a 4th preference category in issuing wild turkey hunting licenses to applicants who are qualified nonresident landowners. For purposes of this paragraph, a qualified nonresident landowner is a person who is not a resident and who owns at least 50 acres in one parcel in an established wild turkey hunting zone and who agrees to allow other persons to hunt wild turkeys on that land if those persons first obtain permission to hunt from the landowner. If more than one individual is the landowner of a single parcel of land, only one individual may be considered a qualified nonresident landowner.

(cm) *Fifth preference.* The department shall create a 5th preference category in issuing wild turkey hunting licenses to all other nonresident applicants.

(cr) *Cumulative preference.* 1. In issuing licenses under the 2nd preference category under this subsection, the department shall give, within that preference category, a preference point to each applicant for each previous corresponding season for which the person applied but was not issued a wild turkey hunting license. The department shall create subcategories for each point total and place each applicant in the applicable subcategory. The department shall rank the subcategories according to the number of preference points received, giving higher priority to those subcategories with more points than those with fewer points. Appli-

cants who fail to apply at least once during any 3 consecutive years shall lose all previously accumulated preference points.

2. If the number of applicants within a preference category or a subcategory under this subsection exceeds the number of wild turkey hunting licenses available in the category or subcategory, the department shall select at random within the category or subcategory the applicants to be issued the licenses.

(d) *License limitation.* No person may apply for or receive more than one wild turkey hunting license during one season.

(e) *Notification; issuance; payment.* The department shall issue a notice of approval to those qualified applicants selected to receive a wild turkey hunting license and tag under par. (a). A person who receives a notice of approval and who pays the license fee in the manner required by the department shall be issued a wild turkey hunting license, subject to ss. 29.024 and 54.25 (2) (c) 1. d., and a tag. The department may not charge a fee for a tag that is issued under this paragraph.

**(3m) WILD TURKEY HUNTING LICENSES ISSUED TO MEMBERS OF ARMED FORCES.** (a) Notwithstanding sub. (3), the department may issue wild turkey hunting licenses and tags without requiring that the licenses and tags be issued pursuant to the cumulative preference system under sub. (3) to members of the U.S. armed forces who are all of the following:

1. Residents.
2. In active service with the U.S. armed forces outside this state.
3. On furlough or leave within the state.

(b) The department may not impose any deadline or other restriction on the timing for applications or issuing licenses or tags under this subsection. If a license and tag under this subsection are issued during the applicable hunting season, the license and tag shall authorize hunting beginning on the date of issuance.

(c) An applicant for a wild turkey hunting license under this subsection shall be eligible for the same number of wild turkey hunting tags for each applicable season time period as an applicant who is issued tags under the cumulative preference system under sub. (3).

**(4) WILD TURKEY HUNTING STAMPS; ADDITIONAL TAGS.** (a) *Issuance.* The wild turkey hunting stamp shall be issued by the department subject to s. 29.024.

(b) *Additional tags.* The department may issue the wild turkey hunting tags that were allocated for a given wild turkey hunting zone or season time period under sub. (3) (a) 2. but that were not issued. The department shall charge the fee specified in s. 29.563 (2) (f) or (g) for each of these additional tags. The issuance of a tag under this paragraph does not affect the priority that the person receiving the tag may have under the cumulative preference system.

**(5) USE OF MONEYS FROM FEES.** The fees collected from the sale of wild turkey hunting stamps shall be credited to the appropriation account under s. 20.370 (1) (ht).

**29.177 Special deer hunting permits. (1) ISSUANCE.** The department may issue a hunter's choice deer hunting permit, a deer hunting party permit or other special deer hunting permit to a person with a valid deer hunting license who applies for the permit and to a person who is exempt from obtaining a deer hunting license under s. 29.063 (5) who applies for a permit.

**(2) AUTHORIZATION.** A hunter's choice deer hunting permit may authorize or require the permit holder to take deer of a sex or type not authorized by a regular deer hunting license. A deer hunting party permit may authorize members of a deer hunting party to take additional deer not authorized by a regular deer hunting license. Except as authorized by rule, a person may not apply for or be issued more than one special deer hunting permit in a single season.

**(3) FINDINGS.** The department may issue permits authorized under this section and s. 29.181 only in those years in which the department finds that the size or characteristics of the deer population of this state require additional or special types of deer to be taken for proper game management.

**(3m) DEER MANAGEMENT RULES.** For the purposes of permits issued under this section and s. 29.181, the department shall specify by rule the type and number of deer which may be taken, the deer management areas where these permits are valid, the number of permits to be issued and other restrictions and conditions concerning these permits.

**(4) CUMULATIVE PREFERENCE SYSTEM.** If the number of qualified applicants for a type of special deer hunting permit in a deer management area exceeds the number of such available special permits, the department shall issue those special permits for that deer management area according to the cumulative preference system.

**(5) PREFERENCE CATEGORIES.** (a) *First preference.* The department shall create a first preference category for applicants who are qualified landowners, but not more than 30% of the available special permits for a deer management area for one season may be issued under this preference category.

(b) *Second preference.* The department shall create a 2nd preference category for resident applicants who applied for but were not issued special permits for a given deer management area for the previous season. Within this preference category, the department shall give a preference point to each applicant for each previous season in which the person applied for but was not issued a special permit for that deer management area. The department shall create subcategories for each point total and place each applicant in the applicable subcategory. The department shall rank the subcategories according to the number of points received, giving higher priority to those subcategories with more points than those with fewer points. Applicants who fail to apply at least once during any 3 consecutive years shall lose all previously accumulated preference points.

(c) *Third preference.* The department shall create a 3rd preference category for those persons who are not eligible under the 1st or 2nd preference categories.

(d) *Random selection.* If the number of applicants within a preference category or a subcategory under this subsection exceeds the number of special deer hunting permits available in the category or subcategory, the department shall select at random

within the category or subcategory the applicants to be issued the permits.

**(6) QUALIFIED LANDOWNER.** In order to apply for a special deer hunting permit as a qualified landowner a person is required to be a resident and the owner of record or a vendee under a land contract of at least 50 acres in one parcel located in whole or in part in the deer management area for which the special permit is valid. No more than one person may apply as a qualified landowner for one parcel of land in one season and if the parcel of land is located in more than one deer management area, the owner or vendee may apply as a qualified landowner in only one of the deer management areas in which the parcel of land is located in one season.

**(7) EXEMPTION FROM CUMULATIVE PREFERENCE SYSTEM.** (a) Notwithstanding sub. (4), the department may issue special deer hunting permits without requiring that the permits be issued pursuant to the cumulative preference system under sub. (4) to members of the U.S. armed forces who are all of the following:

2. In active service with the U.S. armed forces outside this state.
3. On furlough or leave within the state.

If a permit under this subsection is issued during the applicable hunting season, the permit shall authorize hunting beginning on the date of issuance.

(c) *Failure to tag or label.* Fish which are not tagged, labeled or accompanied by a receipt showing the fish were taken in another state or country as required under par. (a) or (b) are presumed to have been taken from the waters of this state.

(d) *Package labeling requirements.* 1. (br) *Inventory.* Each wholesale fish dealer shall prepare an annual inventory of Great Lakes fish and all species of sturgeon owned by the wholesale fish dealer or in the dealer's possession or control at the time that the inventory is prepared, including such fish maintained in cold storage facilities. Upon the written request of a wholesale fish dealer to the department, the department shall keep confidential the value or weight of any fish listed on a record or inventory under this subsection and the identity of any person who is listed on a record under this subsection as having purchased, sold, possessed, or obtained fish.

3. Notwithstanding the confidentiality requirement in subd. 2, the department may disclose information contained on any record or inventory furnished by a dealer to the department if the disclosure is in furtherance of an investigation or enforcement action undertaken by the department or a law enforcement agency.

4. Notwithstanding the confidentiality requirement in subd. 2, the department may disclose information contained on any record furnished by a dealer to the department if the department uses the information for a statistical summary or report that does not identify the dealer by name or license number.

(4) *AUTHORIZATION.* Subject to this section, a taxidermist permit authorizes the permit holder to possess and transport carcasses of wild animals in connection with his or her business. This authority supersedes, to the extent permitted under this section, restrictions on the possession and transportation of carcasses of wild animals established under this chapter and ch. 169. A taxidermist permit entitles the permit holder to the same privileges as a Class A fur dealer's license.

(5) *PROHIBITION ON COMMINGLING CARCASSES; CARCASS IDENTIFICATION.* (a) *Commingling.* No person may commingle, store, possess or transport carcasses of wild animals received in connection with his or her business with carcasses of wild animals received for any other purpose. The identification tag shall remain with the carcass while it is in the possession or under the control of the taxidermist. Each identification tag shall have an identification number which corresponds with the information record of the owner of the carcass. The information record of the owner shall include the owner's name, address and signature, a description of the carcass and the date the carcass is received by the taxidermist. This paragraph does not apply to salvage or spare parts of any carcass owned by a taxidermist that are used for repair or replacement purposes.

(5m) *CONTROL OF CERVID CARCASSES.* No taxidermist may possess, transport, or control the carcass of a cervid in violation of rules promulgated by the department under s. 29.063 (3) or (4).

(6) RECORDS. A taxidermist shall maintain records on sales forms, in triplicate, as required by the department. These records shall include information records of the owner as required under sub. (5) (b), records of all other wild animal carcasses received in his or her place of business and records of deliveries and shipments of wild animal carcasses. (b) A taxidermy school permit authorizes the holder of the permit to purchase muskellunge, bass, bluegill, sunfish, crappie, rock bass or northern pike, or the carcass of these fish, from persons who caught the fish and to resell the fish only to students enrolled in a taxidermy course at the taxidermy school operated by the purchaser. For purposes of this paragraph, a taxidermy course may not include a correspondence course in taxidermy.

(c) A taxidermy school permit issued under this subsection shall limit the number of each species of fish that the operator of the taxidermy school may possess on any given date to the number that the taxidermy school needs for its course of instruction for a period of 2 years beginning on that date.

(d) For the species of fish specified in par. (b), a holder of a taxidermy school permit issued under this subsection shall comply with the tagging requirements under sub. (5) (b) and the recording requirements under sub. (6) and shall allow inspections as authorized under sub. (7).

**29.516 Fishing with nets and setlines. (1) LICENSE REQUIRED.** Nets and setlines may be used for the purpose of taking, catching, or killing fish, subject to the conditions, limitations and restrictions prescribed in this chapter; but no person may set, place or use in any waters of this state any net, trap, snare, set hook, or setline, which is intended to or might take, catch or kill fish of any variety, other than a landing net, dip net, minnow seine or minnow dip net, unless a license authorizing the use of nets, setlines, traps or snares has been issued to the person by the department.

**(2) RESTRICTIONS ON THE USE OF LICENSED NETS AND SETLINES.** The use of licensed nets and setlines is subject to the following conditions:

(a) No apron or other device shall be used in any pound net, which might prevent the escape of small fish through the meshes of the net when it is set or raised.

(b) No net of any kind shall be set so as to shut off more than 50% of any channel or passageway of any stream, or set within 1,000 feet of any other net in the stream.

(c) No licensee may join a net to that of any other licensee.

(d) All nets or set hooks, when set or placed in any waters, shall be marked with a number corresponding to the license number authorizing the use of the nets or set hooks. The method of marking the nets shall be as follows:

1. On drop nets, submarine trap nets and fyke nets, when set below the surface of the water, there shall be a buoy attached to the pot rope, on all gill nets and set hooks there shall be a buoy on each end of the gang, the buoys shall have a staff extending at least 3 feet above the surface of the water, upon the upper end of the staff there shall be a flag at least 10 inches square. Upon the bowl of the buoys there shall be maintained in plain figures the license number authorizing the use of the nets or set hooks.

2. On pound nets and stake fyke nets there shall be maintained at least 3 feet above the surface of the water, or the surface of the ice, when set through the ice, a board or similar material, which shall bear the license number authorizing the use of the nets.

3. On gill nets or set hooks when set through the ice there shall be maintained on each end of the gang a board or similar material which shall bear the license number authorizing the use of the nets or set hooks.

(e) The licensees of licensed nets or setlines used in outlying waters while engaged in the regular process of lifting nets or setlines shall, on their boats, carry the department's agents to and from their nets or setlines when set and, on demand of the agent, shall raise the nets or setlines for inspection. Any agent may, in the presence or absence of the licensees, at any time, raise any setline or nets, in any waters, with as little damage as may be, for inspection. If a licensee refuses to carry an agent the license shall be revoked.

(f) No licensed net may be drawn or lifted at any time between one hour after sunset and one hour before sunrise of the following morning, except as otherwise approved by the department or, in the case of an emergency, following notice to the nearest U.S. coast guard station.

(g) Except as provided in s. 29.519 (4m), no fish of any kind shall be taken or retained in any net, when drawn or lifted, other than the kind or kinds expressly authorized to be taken or retained in the net, as provided in this chapter; and except as provided by department order any other kind or kinds of fish coming into or taken in the nets shall be immediately returned, carefully and with as little injury as possible, to the waters from which they were taken.

**(3) EXEMPTION.** This section does not apply to any net, trap, snare, hook, setline or other device used to take, catch or kill farm-raised fish.

**29.519 Commercial fishing in outlying waters. (1b) In this section, "record" has the meaning given in s. 29.503 (1) (cm).**

**(1m) LICENSE AUTHORIZED.** (a) No person may conduct commercial fishing operations on any of the outlying waters unless the person is issued a commercial fishing license by the department.

(b) The department may limit the number of licenses issued under this section and designate the areas in the outlying waters under the jurisdiction of this state where commercial fishing operations shall be restricted. After giving due consideration to the recommendations made by the commercial fishing boards under sub. (7), the department may establish species harvest limits and promulgate rules to establish formulas for the allocation of the species harvest limits among commercial fishing licensees or for the allotment of individual licensee catch quotas. The department may allocate the harvest limits among commercial fishing licensees. The department may designate the kind, size and amount of gear to be used in the harvest. The limitations on licenses, restricted fishing areas, harvests and gear shall be based on the available harvestable population of fish and in the wise use and conservation of the fish so as to prevent overexploitation.

(c) The department may promulgate rules defining the qualifications of licensees in the reasonable exercise of this authority, giving due consideration to residency, past record including compliance with the records requirements of sub. (5), fishing and navigation ability and quantity and quality of equipment possessed. Rules relating to licensing commercial fishers shall be based on criteria provided by the commercial fishing boards under sub. (7).

(d) 1. In this paragraph, "overall length" means the minimum distance between the extreme outside end of the bow and the stern using the nearest whole number of feet.

2. The application for the license shall be made to the department, accompanied by the fee specified in s. 29.563 (7). The application shall state the name, birthdate, description and address of the residence of the applicant, the manner in which he or she proposes to fish, the name or number and overall length of his or her boats, the name of the hailing port from which the boats will operate, and the number and kind of nets or other gear he or she intends to use in connection with commercial fishing and any other information required by the department for statistical purposes. The applicant shall provide an itemized listing of commercial fishing gear and equipment with the current values of those items of commercial fishing equipment, sufficient to meet the investment requirements for licensing as established in rules promulgated under this section.

(e) No outlying waters commercial fishing license may be issued to a person under the age of 18 years.

**(2) RESIDENCY; TRANSFERS; CATCH FEES.** (a) *Nonresident defined.* In this subsection, "nonresident" includes any individual who is not a resident, any individual applying for a license for use of nets on a boat registered or of record at a port outside of the state, or any partnership, association, corporation or limited liability company any of whose stock, boats, nets and fishing equipment has been owned by a nonresident at any time during the 2 years immediately prior to the application for a license.

(d) *Transfer of license.* The department shall promulgate rules governing the transfer of commercial fishing licenses between individuals equally qualified to hold the licenses and to members of a licensee's immediate family provided the rules assure the wise use and conservation of the fish resources being harvested under the license. The rules shall relate only to those waters in which the number of licenses is limited. The commercial fishing boards, under sub. (7), shall approve or deny transfers of commercial fish-

ing licenses in accordance with the rules promulgated under this section. For purposes of s. 29.024 (2g) and (2r), a transfer of a license under this section shall be considered an issuance of a license to the transferee.

(e) *Transfer of replacement boats.* The department may, upon application, allow the holder of a commercial fishing license to replace a boat listed on that license with a different boat.

(f) *Commercial fishing boats.* Any boat used by a resident licensee shall be from a port of record in this state, its hailing port shall be a port in this state, and it shall be a registered or documented boat of this state. Any boat used by a nonresident licensee shall be a registered or documented boat of the state of residency.

(fm) *Attending boats.* Each boat in excess of 25 feet in overall length used by a commercial fisher may be accompanied by and work with one attending boat without an additional license fee for the attending boat. Any attending boat that is a motorboat under s. 30.50 (2) shall be registered under s. 30.51. An attending boat shall bear the name, if any, of the boat listed on the commercial fishing license issued under sub. (1m) and may be used only for attending that boat.

(g) *Reciprocity.* 1. Except as provided under subd. 2., the department may not issue commercial fishing licenses to nonresidents of a particular state in a number which exceeds the number of commercial fishing licenses that that particular state issues to residents of this state.

2. The reciprocity limitation on the issuance of commercial fishing licenses to nonresidents under subd. 1. does not apply to a nonresident who held a commercial fishing license on or before July 1, 1982, or to a nonresident to whom such a commercial fishing license is or was transferred by a member of his or her immediate family if that license was renewed for at least 5 consecutive years by the nonresident or a member of his or her immediate family and subject to compliance with criteria and approvals required under this section.

(h) *Catch fee.* The department may require a catch fee which shall be equivalent to the department's direct costs of providing fish for harvest, for species of fish designated by department order, as further consideration for obtaining the license. The fees shall be charged only for those species of fish whose populations are sustained or supplemented through stocking and only for those fish caught by the licensee. All the fees shall be used exclusively to pay for the stocking, including purchase or propagation, of the fish.

(4) **CREW LICENSES.** (a) Any commercial fishing licensee may use licensed crew members when fishing with or without a boat. The number of crew members engaged under a single license may not exceed 4 when fishing with nets under the ice. The department, upon proper application for crew licenses, may issue with each commercial fishing license no more than 4 crew licenses for the specific purpose of fishing with nets under the ice and the number indicated on the application for the purpose of fishing in open water. Each crew license shall bear the number of the commercial fishing license, the purpose for which intended, the year for which issued and the name of the crew member to whom the crew license is issued. The crew license permits a person to engage in commercial fishing only as a member of a crew of a commercial fisher licensed under sub. (1m).

(b) Each member of a crew engaged in the setting, lifting or pulling of nets or other devices set under authority of a commercial fishing license shall carry the crew license on his or her person while so engaged and upon demand of any warden shall exhibit the license. Persons using minnow seines and dip nets used for taking smelt and minnows are exempt from this subsection.

(c) In case of illness or unavailability for good cause of a licensed crew member, an unlicensed person may work on a commercial fishing operation for a period not to exceed 48 hours under a temporary crew identification card, after which time he or she must obtain a crew license to engage in commercial fishing operations. Temporary crew identification cards shall be issued by the

department to commercial fishing licensees for use as provided in this paragraph. Prior to use, the commercial licensee shall indicate on the temporary crew identification card the license number and name of the commercial fisher for whom the crew member will be working, the time and date the crew member commences work under the card and the crew member's name, address, description and his or her signature. The card shall be presented, upon request, to a warden and must be in the possession of the crew member at all times while engaged in commercial fishing operations. The commercial fisher issuing the temporary crew identification card to an unlicensed person shall submit the card to the department with the commercial catch report submitted for the period in which work conducted under the card was performed.

(d) The commercial fishing licensee is responsible for all acts of crew members conducting commercial fishing activities for the licensee. A commercial fishing licensee may be charged with and convicted of a violation committed by his or her crew member while the crew member is conducting commercial fishing activities for the licensee. Upon revocation of a commercial fishing license, all crew member licenses issued under that license are invalid, and no person may be issued a temporary crew identification card under that license.

(4g) **PROHIBITION AGAINST OPERATING FISH FARMS.** No person who holds a commercial fishing or crew license issued under this section may operate a fish farm that contains a species of fish that the holder of the license is authorized to catch under this section.

(4m) **FISHING FOR CERTAIN SPECIES OF FISH IN LAKE MICHIGAN AND GREEN BAY.** (a) In this subsection, "incidental catch" means species of fish inadvertently caught while a commercial fisher licensed under sub. (1m) is fishing by trawl for other species of fish.

(b) An incidental catch of smelt, chub or alewife from the waters of Green Bay or Lake Michigan may be brought to shore for the purpose of sorting or sale.

(c) A commercial fisher licensed under sub. (1m) may fish by trawl for the total allowable commercial harvest of smelt, as set by rule by the department, on the waters of Green Bay at any time during nighttime if all of the following apply:

1. The smelt will be used or sold for human consumption.

2. The fishing occurs in the areas and during the seasons established by the department for the fishing of smelt.

(5) **RECORDS AND REPORTS.** (a) *Records requirements.* Each commercial fisher shall maintain and submit records to the department in the form and manner required by the department.

(b) *Fishing records.* The commercial fisher shall keep and submit a complete, legible and accurate record of the licensee's daily fishing activities, in the form and manner required by the department. The record shall include the complete name, address and commercial fishing license number of the licensee; the name and number of the boat fished from; the location fished; the month and year for which the record is being kept; the date of each day's fishing activity; the kind and amount of commercial fishing gear used; the kind of fish caught and the number of pounds of each kind of fish caught; and the signature of the licensee.

(c) *Fish disposition records.* The commercial fisher shall keep a complete, legible and accurate record of the disposition of landed catch, in the form and manner required by the department. The record shall include the complete name, address and commercial fishing license number of the licensee; for each wholesale sale, the complete name, address and wholesale fish dealer license number, if any, of the buyer and the kinds of fish sold, the number of pounds of each kind and the description of the fish sold and the date of the sale; for direct retail sales, the kinds of fish sold, the total pounds of each kind, and the date of the sale; and the signature of the licensee. In this paragraph, "landed catch" means those fish or fish parts caught in commercial fishing operations and brought to shore to utilize or to sell or otherwise dispose of.

(dm) *Record retention and confidentiality.* 1. Each commercial fisher shall maintain and retain all records required under this

subsection for a period of at least 5 years from the date on which the record was created. Each commercial fisher shall notify the department annually, on forms available from the department, of the location of the commercial fisher's records.

2. Upon the written request of a commercial fisher to the department, the department shall maintain the confidentiality of the information contained on each record furnished by the commercial fisher to the department.

3. Notwithstanding the confidentiality requirement in subd. 2., the department may disclose information contained on any record furnished by a commercial fisher to the department if the disclosure is in furtherance of an investigation or enforcement action undertaken by the department or a law enforcement agency.

4. Notwithstanding the confidentiality requirement in subd. 2., the department may disclose information contained on any record furnished by a commercial fisher to the department if the department uses the information for a statistical summary or report that does not identify the commercial fisher by name or license number.

**(5m) INVENTORY.** Each commercial fishing licensee shall prepare an annual inventory of Great Lakes fish and all species of sturgeon owned by the licensee or in the licensee's possession or control at the time that the inventory is prepared, including such fish maintained in cold storage facilities. The inventory shall be furnished to the department within 15 days after the inventory is completed. The inventory shall be recorded on a form available from the department and shall include the weight of the fish in pounds or kilograms, the species of the fish, the condition of the fish, and the address of the location of the fish.

**(6) INSPECTION.** For purposes of enforcement of this section, wardens or department employees duly authorized and designated by the secretary, upon presenting appropriate credentials to the commercial fisher, crew member, or agent in charge, are authorized:

(a) To enter any building or structure, excluding a dwelling place, in which records, nets, or fish are stored or held, or in which fish are processed or packed, or to enter any boat or vehicle being used to transport nets or fish when the owner or agent in charge is present or upon 8 hours' notice at other times.

(b) To inspect buildings, structures, boats or vehicles, to inspect all pertinent equipment including nets used or stored in the places to be inspected, to inspect or copy all records of commercial fishing activity, of fish storage, and of fish disposition, and to inspect any fish stored, processed, packed or held in the places to be inspected.

(c) To direct a commercial fisher, a crew member, or an agent in charge to empty any fish box that is larger than a standard fish box, as defined by the department by rule. If so directed, the commercial fisher, crew member, or agent shall empty such fish box.

**(6g) RECORD PRODUCTION.** Upon the request of the department, a commercial fisher shall produce all records relating to the production, acquisition, sale, trade, barter, storage, or disposition of fish that are kept at the commercial fisher's place of business or at a residence, dwelling, or location other than the commercial fisher's place of business within 24 hours of the request for inspection or copying. The records shall be mailed within 24 hours of receipt of the request.

**(6m) INTERFERENCE WITH INSPECTIONS.** No commercial fisher, licensed crew member, operator of a vehicle or boat for the commercial fisher, or an employee acting on behalf of the commercial fisher may prohibit entry, prohibit an inspection to be conducted, fail or refuse to produce any record, or fail or refuse to immediately empty a fish box or container as provided under sub. (6). The department may not conduct an inspection or examine a person's records under sub. (6) if such action has been enjoined by court order.

**(7) COMMERCIAL FISHING BOARDS.** The Lake Superior and Lake Michigan commercial fishing boards established under s. 15.345 (2) and (3) shall review and consider applications for a

transfer of license under this section and shall approve or deny applications on the basis of rules promulgated by the department. The boards shall recommend to the department species harvest limits and formulas for the allotment of individual licensee catch quotas when the department establishes species harvest limits for allocation among licensees. The boards shall assist the department in establishing criteria for identifying inactive licensees. The criteria established for identifying inactive licensees shall be the basis for rules governing the issuance of licenses. The boards may also advise the department on all other commercial fishing matters relating to Lake Michigan and Lake Superior.

## 29.522 Description of nets; use of. (1) ENTRAPPING NETS.

(a) *Fyke net.* A fyke net is a composite net consisting of the following parts:

1. One net of a general hoop or circular-like structure commonly called a crib or pot with numbers of hoops holding, encasing or enclosing net webbing.

2. One or more small funnel-shaped nets commonly called tunnels with a large opening at one end and a small opening or throat at the other end through which the fish can pass from the outer part of the net into the crib or pot. This tunnel or these tunnels are attached to the inside of the crib or pot.

3. Two fence-like nets called wings or hearts attached to and extending obliquely outward from each side of the mouth of the net proper.

4. One fence-like net called a leader running from the center of the tunnel outward between the wings in a straight or angular line away from the net proper.

(b) *Drop net.* A drop net is a composite net consisting of the following parts:

1. One net of a general hoop or circular-like structure called a crib or pot with numbers of hoops holding, encasing or enclosing net webbing.

2. One or more small funnel-shaped nets commonly called tunnels with a large opening at one end and a small opening or throat at the other through which the fish can pass from the outer part of the net into the crib or pot. This tunnel or these tunnels are attached to the inside of the crib or pot.

3. One funnel- or hood-shaped net called a tunnel sloping upward and outward from the pot or crib.

4. Two fence-like nets called wings or hearts attached to and extending obliquely outward from each end of the tunnel.

5. One fence-like net called a leader running from the center of the tunnel outward between the wings in a straight or angular line away from the net proper.

(c) *Short tunnel pound net.* A short tunnel pound net is a composite net consisting of the following parts:

1. One boxlike receptacle closed at the bottom and sides and open at the top in which the fish are finally caught or impounded and variously known as a pound, pot or crib, but generally and commonly known in Wisconsin as a pot.

2. Two fence-like nets called hearts set one on each side of the tunnel mouth and used to form a preliminary enclosure resembling a heart in shape with no cover on the top or bottom.

3. One or more funnel-shaped nets commonly called a tunnel or tunnels with a large opening at one end and a small opening or throat at the other through which the fish can pass from the hearts into the pot.

4. One fence-like net called a leader running from the opening in the hearts in a straight or angular line away from the net proper.

5. All pound nets licensed or operated under this section must have their tunnels located and fastened entirely on the inside of the pot of the same, forming a net that is commonly known and called a short tunnel pound net.

**(2) ENTANGLING NETS.** (a) *Trammel net.* A trammel net is made of 3 sheets of net webbing, one of them of comparatively small mesh and of fine twine being hung between 2 sheets of net webbing of much larger mesh and heavier twine. This net is equipped at the top and bottom with lead or maitre cord, line, or rope to which at the top are attached floats and at the bottom, sinkers. The inner web of this net is of considerably greater fullness than the outside web.

(b) *Gill net.* A gill net is a net designed to entangle fish and made of a single web of fine thread hung and fitted at the top and bottom with lead or maitre cord, line, or rope to which are attached at the top, floats, and at the bottom, sinkers.

**(3) DRAG NETS; SEINE.** A seine is a net made of a circular, square or long webbing of coarse twine hung very full and fitted at the top and bottom with lead or maitre cord, line or rope. To such lines at the top are attached floats, and at the bottom, sinkers. This net is hung with such fullness that it creates or forms a kind of a bag near the center of the net which holds or entraps the fish while the net is being drawn through the waters.

### 29.523 Net licenses, Mississippi and St. Croix rivers.

In promulgating the rules, the department to the extent relevant shall consider the need for pesticides to protect the well-being of the general public. "Pesticide" has the meaning given in s. 94.67.

(5) **EXCEPTIONS.** (a) This section does not apply to any activities carried out under the direction and supervision of the department of transportation in connection with the construction, reconstruction, maintenance and repair of highways and bridges in accordance with s. 30.2022.

**NOTE:** 2005 Wis. Act 347, which affected this section, contains extensive explanatory notes.

The legislative history and language of sub. (3) indicate that the statute is concerned primarily with the discharge into navigable waters of refuse arising from manufacturing activities and does not attempt to prohibit silting caused by surface water runoff. *State v. Deetz*, 66 Wis. 2d 1, 224 N.W.2d 407 (1974).

A proposed rule prohibiting the use of the chemical 2,4,5-T, unless a permit has been obtained, is within the statutory authority of the DNR under sub. (4). 64 Atty. Gen. 126.

Discharging taconite tailings into the waters of Lake Superior was a violation of the Federal Water Pollution Control Act and a common-law nuisance. *United States v. Reserve Mining Co.* 380 F. Supp. 11.

**29.604 Endangered and threatened species protected. (1) PURPOSE.** The legislature finds that certain wild animals and wild plants are endangered or threatened and are entitled to preservation and protection as a matter of general state concern. The federal endangered species act of 1973 and the Lacey act together provide for the protection of wild animals and wild plants threatened with worldwide extinction by prohibiting the importation of endangered or threatened wild animals and wild plants and by restricting and regulating interstate and foreign commerce in wild animals and wild plants taken in violation of state, federal and foreign laws. The states, however, must also assume their responsibility for conserving these wild animals and wild plants and for restricting the taking, possession, transportation, processing or sale of endangered or threatened wild animals and wild plants within their respective jurisdictions to assure their continued survival and propagation for the aesthetic, recreational and

scientific purposes of future generations. The legislature finds that by restricting the taking, possession or marketing of endangered species in this state and by establishing a program for conservation and restoration of these endangered or threatened species, their potential for continued existence will be strengthened. The legislature further finds that the activities of both individual persons and governmental agencies are tending to destroy the few remaining whole plant–animal communities in this state. Since these communities represent the only standard against which the effects of change can be measured, their preservation is of highest importance, and the legislature urges all persons and agencies to fully consider all decisions in this light.

**(2) DEFINITIONS.** For purposes of this section:

(a) “Endangered species” means any species whose continued existence as a viable component of this state’s wild animals or wild plants is determined by the department to be in jeopardy on the basis of scientific evidence.

(am) “State agency” means a board, commission, committee, department or office in the state government or the Fox River Navigational System Authority. “State agency” does not include the department of natural resources or the office of the governor.

(b) “Threatened species” means any species of wild animals or wild plants which appears likely, within the foreseeable future, on the basis of scientific evidence to become endangered.

(bn) “Whole plant–animal community” means a group of species living together in a particular area, time and habitat.

(c) Notwithstanding s. 29.001 (90), “wild animal” means any mammal, fish, wild bird, amphibian, reptile, mollusk, crustacean, or arthropod, or any part, products, egg or offspring thereof, or the dead body or parts thereof.

(d) “Wild plant” means any undomesticated species of the plant kingdom occurring in a natural ecosystem.

**(3) ENDANGERED AND THREATENED SPECIES LIST.** (a) The department shall by rule establish an endangered and threatened species list. The list shall consist of 3 parts: wild animals and wild plants on the U.S. list of endangered and threatened foreign species; wild animals and wild plants on the U.S. list of endangered and threatened native species; and a list of endangered and threatened Wisconsin species. Wisconsin endangered species shall be compiled by issuing a proposed list of species approaching statewide extirpation. Wisconsin threatened species shall be compiled by issuing a proposed list of species which appear likely, within the foreseeable future, to become endangered. Issuance of the proposed lists shall be followed by solicitation of comments and public hearing. Wild animals and wild plants shall be considered to be approaching statewide extirpation if the department determines, based upon the best scientific and commercial data available to it, after consultation with other state game directors, federal agencies and other interested persons and organizations, that the continued existence of these wild animals and wild plants in this state is in jeopardy.

(b) The department shall periodically review and, following public hearing, may revise its endangered and threatened species list. A summary report of the scientific data used to support all amendments to the state’s endangered and threatened species list shall be maintained by the department.

(c) The department may upon the petition of 3 persons review any listed or unlisted wild animal or wild plant if the persons present scientific evidence to warrant such a review, after which the department may by hearing and rule amend the statewide list.

**(4) PROHIBITION.** Except as provided in sub. (6r) or as permitted by departmental rule or permit:

(a) No person may take, transport, possess, process or sell within this state any wild animal specified by the department’s endangered and threatened species list.

(b) No person may process or sell to another person a wild plant of an endangered or threatened species.

(c) No person may do any of the following to any wild plant of an endangered or threatened species that is on public property or on property that he or she does not own or lease, except in the course of forestry or agricultural practices or in the construction, operation or maintenance of a utility facility:

1. Remove, transport or carry away the wild plant from the place where it is growing.

2. Cut, root up, sever, injure or destroy the wild plant.

**(5) ENFORCEMENT.** (a) 1. Whoever violates sub. (4) (a) shall forfeit not less than \$500 nor more than \$2,000. In addition, the court shall order the revocation of all hunting approvals issued to the person under this chapter and shall prohibit the issuance of any new hunting approvals under this chapter for one year. Whoever intentionally violates sub. (4) (a) shall be fined not less than \$2,000 nor more than \$5,000 or imprisoned for not more than 9 months or both. In addition, the court shall order the revocation of all hunting approvals issued to the person under this chapter and shall prohibit the issuance of any new hunting approvals under this chapter for 3 years.

2. Whoever violates sub. (4) (b) or (c) shall forfeit not more than \$1,000. Whoever intentionally violates sub. (4) (b) or (c) shall be fined not more than \$1,000 or imprisoned for not more than 9 months or both.

(b) Any officer employed and authorized by the department, or any police officer of this state or of any municipality or county within this state, shall have the authority to execute a warrant to search for and seize any goods, business records, merchandise or wild animal or wild plant taken, employed, used or possessed in violation of this section. Any such officer or agent may, without a warrant arrest any person whom the officer or agent has probable cause to believe is violating this section in his or her presence or view. An officer or agent who has made an arrest of a person in connection with any violation under this section may search the person or business records at the time of arrest and seize any wild animals and wild plants, records, or property taken, used or employed in connection with any violation.

(c) Goods, merchandise, wild animals, wild plants or records seized under par. (b) shall be held by an officer or agent of the department pending disposition of court proceedings and shall be forfeited to the state for destruction or disposition as the department determines to be appropriate. Prior to forfeiture, the department may direct the transfer of wild animals or wild plants so seized to a qualified zoological, educational or scientific institution or qualified private propagator for safekeeping with costs assessable to the defendant.

**(6) PERMITS.** (a) The department shall issue a permit, under such terms and conditions as it may prescribe by rule, authorizing the taking, exportation, transportation or possession of any wild animal or wild plant on the list of endangered and threatened species for zoological, educational or scientific purposes, for propagation of such wild animals and wild plants in captivity for preservation purposes, unless such exportation, possession, transportation or taking is prohibited by any federal law or regulation, or any other law of this state.

(b) Any endangered species of wild animal or wild plant which enters the state from another state or from a point outside the territorial limits of the United States and which is being transported to a point within or beyond the state may enter the state and be transported without restriction in accordance with the terms of any federal permit or permit issued under the laws or regulations of another state.

(c) Possession, sale or transportation within this state of any endangered species on the U.S. list of endangered and threatened foreign species shall not require a state permit under par. (a).

**(6m) INCIDENTAL TAKINGS; PERMITS.** (a) In this subsection and sub. (6r), “taking” means an activity prohibited under sub. (4) (a), (b) or (c).

(b) The department may issue a permit, under such terms and conditions as it may prescribe, authorizing a taking that otherwise is prohibited by this section if the taking is not for the purpose of, but will be only incidental to, the carrying out of an otherwise lawful activity.

(c) The department may not issue a permit under this subsection unless an applicant for the permit submits to the department a conservation plan and an implementing agreement. The conservation plan shall include all of the following:

1. A description of the impact that will likely occur as a result of the taking of an endangered species or threatened species that is specified on the department's endangered and threatened species list.

2. The steps that the parties specified under par. (d) will take to minimize and mitigate the impact that the endangered species or the threatened species will suffer.

3. A description of the funding that the parties specified under par. (d) will have available to implement the steps specified under subd. 2.

4. A description of the alternative actions to the taking that the parties in par. (d) have considered and the reasons that these alternatives will not be utilized.

5. Any other measures that the department may determine to be necessary or appropriate.

(d) The implementing agreement required under par. (c) shall specifically name, and describe the obligations and responsibilities of, all the parties that will be involved in the taking as authorized by the permit.

(e) Upon receipt of an application for a permit and the accompanying conservation plan and implementing agreement for a proposed taking, the department shall publicize the application by announcing the application receipt and by giving a brief description of the proposed taking. The department publicity shall be distributed to the news media in the vicinity of the proposed taking and to the official state newspaper designated under s. 985.04. The department shall, by rule, establish a list of organizations, including nonprofit conservation groups, that have a professional, scientific or academic interest in endangered species or in threatened species. The department shall give notification of proposed takings under this subsection to these organizations. The department shall establish a procedure for receipt of public comment on the proposed taking.

(f) After having considered the public comment received on the proposed taking, the department shall issue the permit if the department finds, based on the permit application, the conservation plan and the implementing agreement, the taking will meet all of the following requirements:

1. The taking will not be the purpose of, but will be only incidental to, the carrying out of a lawful activity.

2. The parties specified under par. (d) will, to the maximum extent practicable, minimize and mitigate the impact caused by the taking.

3. The parties specified under par. (d) will ensure that adequate funding for the conservation plan will be provided.

4. The taking will not appreciably reduce the likelihood of the survival or recovery of the endangered species or threatened species within the state, the whole plant–animal community of which it is a part or the habitat that is critical to its existence.

5. Any measures required under par. (c) 5. will be met.

(g) The department may require that a party specified under par. (d) make additional assurances that the requirements under par. (f) 1. to 5. will be met before issuing a permit under par. (f).

(h) The department shall impose on the permit any terms or conditions that the department finds necessary to ensure that the requirements under par. (f) 1. to 5. will be met. These terms or conditions may include reporting and monitoring requirements. These terms or conditions are modifiable only as provided under par. (hm).

(hm) The terms or conditions of a permit shall be modified if one of the following applies:

1. The modification is expressly provided in the conservation plan, implementing agreement or permit.

2. The permittee requests the modification.

3. Just cause exists based upon a written finding of necessity by the secretary.

(hr) A finding of necessity under par. (hm) 3. by the secretary shall be a final decision not subject to review under subch. III of ch. 227.

(i) The department shall revoke a permit issued under this subsection if it finds that a party specified under par. (d) fails to comply with the terms and conditions of the permit.

(j) A permit issued by the department is not required if a federal permit under 16 USC 1539 has been issued and if the federal fish and wildlife service consulted with the department in the process of determining whether to issue the federal permit.

(k) Paragraphs (b) to (j) do not apply to activities by a state agency or by the department under sub. (6r).

**(6r) AGENCY ACTIVITIES.** (a) A state agency shall notify the department at the earliest opportunity of the location, nature and extent of a proposed activity that the state agency may conduct, approve or fund and that may affect an endangered species or threatened species. The department may allow the taking of an endangered species or threatened species if all of the following apply:

1. The activity is accomplished in accordance with interagency consultation procedures established by the department and the state agency for the purpose of minimizing any adverse effect on the endangered species or threatened species.

2. The activity is not likely to jeopardize the continued existence and recovery of the endangered species or threatened species, or the whole plant–animal community of which it is a part, within this state and the activity is not likely to result in the destruction or adverse modification of a habitat that is critical to the continued existence of the endangered species or the threatened species within the state, as determined by the department under par. (b).

3. The benefit to public health, safety or welfare justifies the activity.

(b) For purposes of par. (a) 2., the department shall determine whether a habitat is critical to the continued existence of an endangered species or threatened species by considering the endangered species' or threatened species' global and state element ranking as defined by the methodology used by the natural heritage inventory program.

(bn) The department may allow an activity by the department itself that results in the taking of an endangered species or threatened species if the activity is accomplished with procedures established by the department for the purpose of minimizing any adverse effect on the endangered species or threatened species and if pars. (a) 2. and 3. and (b) apply.

(c) The department shall notify the state agency if the department determines that there is reasonable cause for the department to determine that an activity by the state agency is not being carried out in compliance with this subsection or with any environmental protection requirements developed through interagency consultation procedures. If the secretary of natural resources and the head, as defined in s. 15.01 (8), of the state agency are unable to agree upon methods or time schedules to be used to correct the alleged noncompliance, the department may bring any action or initiate any other proceedings to enforce compliance with this subsection.

(d) The department and the state agency shall exchange information and cooperate in the planning and implementation of any activity relating to the taking of any endangered species or threatened species in order to alleviate, to the maximum extent practica-

ble under the circumstances, any potential adverse effect on the endangered species or the threatened species.

(e) 1. Except as provided in subd. 2., cooperation between the department and the state agency under par. (d) shall include conducting reasonable surveys and reasonable biological assessments as determined by the department.

2. Subdivision 1. does not apply if the department states in writing that it has data that is sufficient to make a determination that the proposed taking will not reduce the likelihood of the survival or recovery of the endangered species or threatened species within the state, the whole plant–animal community of which it is a part or the habitat that is critical to its existence.

(em) 1. Before allowing the taking of an endangered species or threatened species under this subsection, the department shall give notice of the proposed activity to the news media throughout the state and to any person who wants to receive notification of proposed takings under this subsection and who has so informed the department in writing. The department shall transmit the notice at least 30 days before allowing the taking except as provided in subd. 2.

2. If the department determines that it cannot comply with the 30–day time limit in subd. 1., the department shall transmit the notice as far in advance as is practicable before allowing the taking.

(f) In addition to any requirements under s. 1.11, the department may give public notice of and hold public hearings on the activities of state agencies or the department under this subsection.

**(7) CONSERVATION.** (a) The department shall conduct research on the endangered and threatened species of this state and shall implement programs directed at conserving, protecting, restoring and propagating selected state–endangered and threatened species to the maximum extent practicable.

(b) The department may enter into agreements with federal agencies, other states, political subdivisions of this state or private persons with respect to programs designed to conserve endangered or threatened species of wild animals or wild plants. Agreements with private persons under this paragraph may include providing for the movement of an endangered or threatened species to another appropriate habitat, preferably to a habitat located on state–owned or state–leased land.

**(8) EXEMPTIONS.** This section does not apply to zoological societies or municipal zoos, or to their officers or employees.

Sub. (4) applies to state–listed endangered and threatened plants growing on public property. OAG 3–00.

**29.607 Wild rice.** **(1) TITLE TO WILD RICE.** (a) The legal title to all wild rice growing in any lake of the state, whether meandered or not, is vested in the state for the purpose of regulating harvest, use, disposition and conservation of wild rice.

(b) The legal title to wild rice taken or reduced to possession in violation of this chapter remains in the state. Title to wild rice lawfully acquired is subject to the condition that upon the violation of this section by the holder of title to the wild rice, the title shall revert, as a result of the violation, to the state.

**(2) POWERS OF THE DEPARTMENT.** (a) The secretary may designate the opening date for harvesting wild rice in any navigable lake or stream by posting notice of the opening date on the shores of and at places of public access to the lake at least 24 hours before

the opening date, unless the department promulgates by rule a different time period required for notice. Posting is sufficient notice of the opening date and no other publication is required.

(b) The department shall obtain the advice and recommendations of the tribal council before promulgating any rules governing the harvest, use and disposition of wild rice growing within the bounds of an Indian reservation.

**(3) LICENSE REQUIRED; EXCEPTIONS; WILD RICE IDENTIFICATION CARD.** Every person over the age of 16 and under the age of 65 shall obtain the appropriate wild rice license to harvest or deal in wild rice but no license to harvest is required of the members of the immediate family of a licensee or of a recipient of old–age assistance or members of their immediate families. The department, subject to s. 29.024 (2g) and (2r), shall issue a wild rice identification card to each member of a licensee’s immediate family, to a recipient of old–age assistance and to each member of the recipient’s family. The term “immediate family” includes husband and wife and minor children having their abode and domicile with the parent or legal guardian.

**(4) LICENSES.** (a) *Wild rice harvest license.* No wild rice harvest license is required of helpers of a licensee who participate only in shore operations. Wild rice harvest licenses may be issued only to residents.

(b) *Wild rice dealer license.* A wild rice dealer license is required to buy wild rice within the state for resale to anyone except consumers, or to sell wild rice imported from outside of the state to anyone within the state except consumers, or to process wild rice not harvested by the processor himself or herself for resale by the processor to any other person. The license is required to be a class D wild rice dealer license if the amount of wild rice bought, sold or processed by the licensee within the year covered by the license exceeds 50,000 pounds. Jury unanimity as to the manner in which a defendant violates it is not required. Failure to specify the manner of violation did not deny the defendant his due process right to a unanimous jury verdict. *State v.
