3 (ab), 101.123 (2) (d), 101.123 (3) (dm), 101.123 (3) (e), 101.123 (3) (h), 101.123
4 (3m) and 101.123 (4) (a) 2m. of the statutes; **relating to:** smoking in
5 restaurants and bowling centers and the regulation of smoking by counties,
6 cities, villages, and towns.

Analysis by the Legislative Reference Bureau

Current law, with certain exceptions, prohibits smoking in enclosed, indoor areas within specified buildings and facilities, including restaurants with a capacity of more than 50 individuals. Among those places that are exempt from the prohibition are taverns holding a "Class B" intoxicating liquor license or Class "B" fermented malt beverage license issued by a municipality (liquor license) and restaurants holding a liquor license, if the sale of alcohol beverages accounts for more than 50 percent of the restaurant's receipts.

This substitute amendment eliminates the exemption that applies to restaurants holding a liquor license and having alcohol beverage sales accounting for more than 50 percent of the restaurant's receipts. The substitute amendment also creates two new exemptions to the general prohibition against smoking in

restaurants. Under the substitute amendment, the prohibition against smoking in restaurants does not apply to the bar area of a restaurant if the sale of food in the bar area is only incidental to the sale of alcohol beverages. It also does not apply to a separate room in a restaurant if the room has an independent ventilation system that is entirely separate from the rest of the restaurant.

Current law, with certain exceptions, authorizes a person in charge of any building or facility where smoking is prohibited to designate smoking areas within the building or facility. This substitute amendment provides that a person in charge of a restaurant may not designate an area of a restaurant as a smoking area unless smoking is otherwise allowed in that restaurant.

Current law does not prohibit smoking in bowling centers. This substitute amendment prohibits smoking in bowling centers unless the bowling center meets certain conditions. In order for the bowling center to be exempt from the general prohibition against smoking, the bowling center must not be primarily devoted to the sale of alcohol, must prohibit smoking on each bowling lane when the bowling center is holding youth league play, must have an adequate ventilation system, must establish periods of time when smoking is prohibited in the bowling center, and must provide the same service to nonsmoking customers in a smoke-free area that it provides to smoking customers.

Current law provides that a county, city, village, or town (local government) may enact ordinances and a school district may adopt policies that protect the health and comfort of the public if those ordinances or policies comply with the purpose of state laws regulating smoking. This substitute amendment specifies that a local government may not enact or enforce an ordinance or adopt or enforce a resolution regulating smoking unless the ordinance or resolution strictly conforms with state law.
